Grande contenimento nel minore spazio possibile; è l'obiettivo di Flat.C pensato non solo per i libri, ma anche per alloggiare adeguatamente televisore e tutti gli apparecchi hi-fi ed ospitare una postazione home office, con un ingombro ridotto e soluzioni estetiche di grande eleganza. La sua profondità è di soli cm 25, gli spessori di piani e fianchi sono estremamente ridotti, vi è assenza totale di giunti a vista. Flat.C ha capacità di contenimento molto consistenti grazie alla presenza di volumi sospesi e aggettanti, aperti o chiusi, a tutta altezza o più bassi, utilizzabili con funzione decorativa o come contenitori molto capaci, integrati alla libreria e dotati di diversi sistemi di apertura. Modularità e flessibilità sono qualità che ne garantiscono l'inserimento in situazioni differenti con soluzioni su misura per singole esigenze. L'alluminio estruso è stato utilizzato per gli elementi strutturali, fianchi e traverse posteriori, mentre i piani orizzontali sono realizzati in legno laccato. Un sistema di canaline ispezionabili risolve con efficacia l'elettrificazione e il problema del passaggio dei cavi. Finiture colorate o monocrome lo modificano sotto il profilo estetico permettendogli di assumere aspetti tra loro diversi senza che la sua riconoscibilità venga meno.

Lots of storage in the least space possible. This is the goal of Flat.C: a bookshelf that is not just for books it also serves to house the television and all audio visual equipment and even the home office workstation, in a small space with very elegant aesthetic solutions. It is only 25 cm deep, the thickness of the sides and tops is minimal, and there are no visible connections or joints. Flat.C has ample storage capacity, thanks to different types of units: flush wall mounted, projecting, open, closed, floor to ceiling or at a lower height. All elements can be used to add style or purely for storage, and all integrate perfectly into the bookcase and can have a number of different opening styles. The elements are both modular and flexible. These qualities guarantee that Flat.C the can fit into a wide range of situations with custom solutions or to meet specific requirements. Extruded aluminium is used for the structural elements, sides and back crossbars, and horizontal surfaces are made of lacquered wood. There is also a system of cable ducts that can be opened for inspection which effectively houses electrical wiring efficiently. Monochrome or colourful finishes change the bookcase's look, making it possible to take on different styles without ever losing its original imprint.

_01

Flat.C Librerie modulari / Modular bookcases

Sistema a parete fortemente innovativo, tecnologico e di grande eleganza all'insegna della massima leggerezza. L'adattarsi a pareti diverse per dimensioni e la capacità di essere racchiuso in una nicchia, sono espressione della sua flessibilità. Non solo destinato ai libri, trova nei piani a profondità variabile e nei contenitori sporgenti un ampliamento delle sue funzioni: sorta di teche espositive che muovono la griglia di piani orizzontali e verticali. Anche il fianco è attrezzabile con un elemento terminale a libreria.

This very innovative, technological wall system sports striking aesthetic elegance with a look of maximum lightness. Flat.C adapts to different sized walls and can even be set into a small niche. The design of Flat.C offers the unlimited flexibility. It isn't just for books. There is a vast array of uses for the shelves with variable depth and projecting storage units, along positioning of the shelves that change the grid of horizontal and vertical lines. The side panel can also be equipped with a bookcase terminal unit.

Elementi sporgenti aperti o chiusi secondo un'estetica di solidi primari. Sospesi o posizionabili a terra, prevedono ante a ribalta e cassetti; la sola versione a terra può essere dotata anche di ante complanari. I piani orizzontali a profondità variabile possono ricevere oggetti decorativi e libri voluminosi integrandosi perfettamente al sistema.

Open or closed projecting compartments based on aesthetics focused on primary solids. Either wall mounted or free standing they are available with flap doors and drawers; the floor standing version can also have flush mounted doors. The horizontal tops with variable depths can hold decorative objects and large books, and be perfectly integrated into the system.

L'impatto grafico di Flat.C è ben visibile nell'esempio a fianco dove tre contenitori a sviluppo orizzontale sporgono dalle linee dei ripiani e dei fianchi. L'eliminazione dei punti di giunzione dei contenitori è determinata da una speciale lavorazione definita "folding", che permette ad un unico pannello di legno di essere piegato fino a formare il volume.

Flat.C's graphic impact is truly seen in the example on the opposite page, where three horizontal projecting containers are positioned to protrude from the outline of the sides and tops. The absence of joints between parts of the containers is due to an advanced technological process called "folding", which simply means that we fold a single panel of wood to form the piece.

_02

Flat.C Ante scorrevoli orizzontali / Horizontal sliding doors

Un elemento significativo deriva dall'anta a tutta altezza che, scorrendo su binari "invisibili" integrati nella struttura, nasconde alcune porzioni della parete attrezzata, per esempio quella che contiene l'apparecchio televisivo rendendolo visibile solo nel momento dell'utilizzo. Superficie importante, laccata satinata o in vetro, completa il sistema e, insieme agli altri elementi, contribuisce a sottolinearne l'eleganza.

One truly significant element is the door that covers the complete height of the bookcase, sliding on "invisible" tracks that are integrated into the frame. It hides a part of the bookcase, for example the area where the television set is located, and slides to show it only when someone wants to use it. This is an important piece, finished in either in satin lacquer or glass. It completes the system, and together with other parts, accentuates its elegance.

Gli schienali sono una presenza insieme importante e facoltativa: possono essere assenti oppure presenti con un colore sia a contrasto sia omogeneo con la struttura e mascherare i cavi che scorrono verticalmente alle spalle del mobile. Con un gioco di pieni e di vuoti.

The back panels are important but also optional, they can be left out or used with contrasting or matching colours hiding away the cables that run vertically behind the bookcase, a play on full and empty spaces.

_03

Flat.C Contenitori a terra / Floor storage units

Quando si modifica assumendo un andamento decisamente orizzontale, componendosi in versioni basse, Flat.C non perde le sue caratteristiche: effetto di leggerezza dato dagli spessori sottili dei fianchi e dei piani e ampie capacità di contenimento grazie agli elementi sporgenti pensati con apertura ribalta. Se posizionati a terra, i contenitori ospitano cassetti attrezzabili che scorrono silenziosamente su guide ammortizzate.

When modified to create a low, horizontal configuration, Flat.C doesn't lose any of its style. A look of lightness is created by the thin profiles of the sides and shelves, along with the large storage areas thanks to the projecting units designed with flap doors. If placed on the floor, the containers house drawers that can be fitted with accessories and silently slide along runners with slow closures.

Flat.C Home office e piani multifunzionali / Home office and multipurpose tops

Piani sporgenti di forte spessore portano un segno distintivo alla griglia di base. Sono posizionabili ad altezze diverse: a 700 mm da terra con funzione scrivania o piano di lavoro per il PC. A 450 mm come piano di appoggio per le apparecchiature multimediali. Piani e schienali sono facilmente rimovibili e consentono un agevole accesso ai cavi di cablaggio e alimentazione.

Thick projecting surfaces give a distinctive look to the basic bookcase grid structure. They can be positioned at different heights: 700 mm-27 1/2" off the floor, to be used as a desk or for a computer work station, or 450 mm-17 3/4" as a shelf for multimedia equipment. Tops and backs can be easily removed and allow for easy access to the power and connection cables.

E IN QUELLE SUCCESSIVE
OPPOSITE PAGE AND NEXT PAGES:
BUNCH VASO_VASE

Ai pieni e ai vuoti dei vani con o senza schienale e al segno deciso della mensola di forte spessore, si aggiunge l'eleganza dell'anta scorrevole in vetro che apre e chiude il vano destinato alla zona di lavoro, predisposto per l'utilizzo del PC. I binari di scorrimento integrati alla struttura e dotati di meccanismo di chiusura ammortizzata, sono risolti con eleganza.

The open and closed spaces of the compartments with or without rear panel, and the striking look of the thick shelf are all complemented by the elegant sliding door in glass that opens and closes the compartment intended as workstation to be used with a PC. The sliding tracks, which are integrated into the frame and equipped with a slow closure mechanism, elegantly fit into the bookcase.

_05

Flat.C Home theatre

Il televisore e le apparecchiature ad esso collegate trovano in Flat.C una loro specifica collocazione. Visibile o nascosto dall'anta, appoggiato sul volume sporgente o appeso allo schienale, il televisore non mostra antiestetici grovigli di cavi. Un sistema di canaline ispezionabili risolve con efficacia il loro passaggio, con soluzioni sia pratiche sia estetiche. Il vetro speciale dell'anta, che chiude i vani destinati alle apparecchiature multimediali, permette il passaggio del comando a distanza senza ostacolare il segnale del telecomando. Lo schienale che supporta la TV è costituito da strati di fibra di cellulosa ad alta resistenza.

The television and home cinema equipment are completely at home in Flat.C. They can be either in plain view or hidden behind the door, resting on the extended surface or hanging on the back panel: no more unsightly snarls of TV cables will be seen again. The cable duct system effectively solves wiring dilemmas in a practical and attractive way. The special glass used on the door front of the audio-video and home cinema equipment compartments allows the remote signal to pass through and reach the equipment. The back that supports the TV is made up of layers of high-resistance cellulose fibre.

Elementi sporgenti

(*) elementi sporgenti: non accostabili e sovrapponibili tra di loro.

Altezza massima consigliata per inserimento elementi sporgenti sospesi: 2108 mm.

Projecting elements

(*) projecting elements: not positionable and stackable close one to the other.

Maximum suggested height to place the suspended projecting elements: 2108 mm - 83 1/8".

elemento sporgente profondità 440 mm (a giorno - ribalta) posizionabile solo sospeso

projecting element depth 440 mm - 17 3/8" (open - flap) positionable only suspended

elemento sporgente profondità 440 mm (cassetto) posizionabile solo sospeso

projecting element depth 440 mm - 17 3/8" (drawer) positionable only suspended

elemento sporgente profondità 440 mm (ribalta) e 540 mm (ribalta - cassetto) posizionabile solo a terra (con basamento)

projecting element depth 440 mm - 17 3/8" (flap) and 540 mm - 21 1/4" (flap - drawer) positionable only on floor (with base-frame)

traverso centrale per vano ponte (da fissare a parete)
central crosspiece for compartment bridge (to fix to the wall)

piano asportabile
removable top

piano multifunzionale profondità 690 mm posizionabile in altezze 444 - 700 mm
multipurpose top depth 690 mm - 27 1/8" positionable in heights 444 - 700 mm - 17 1/2" - 27 1/2"

contenitore audiovisivo profondità 690 mm posizionabile in altezza 444 mm
audiovideo storage unit depth 690 mm - 27 1/8" positionable in height 444 mm 17 1/2"

piano multifunzionale profondità 450 mm posizionabile (da fianco a fianco) in altezze 444 - 700 mm
multipurpose top depth 450 mm - 17 3/4" positionable (from side to side) in heights 444 - 700 mm - 17 1/2" - 27 1/2"

elemento sporgente profondità 540 mm (ribalta - cassetto) posizionabile solo a terra (da fianco a fianco)
projecting element depth 540 mm - 21 1/4" (flap - drawer) positionable only on floor (from side to side)

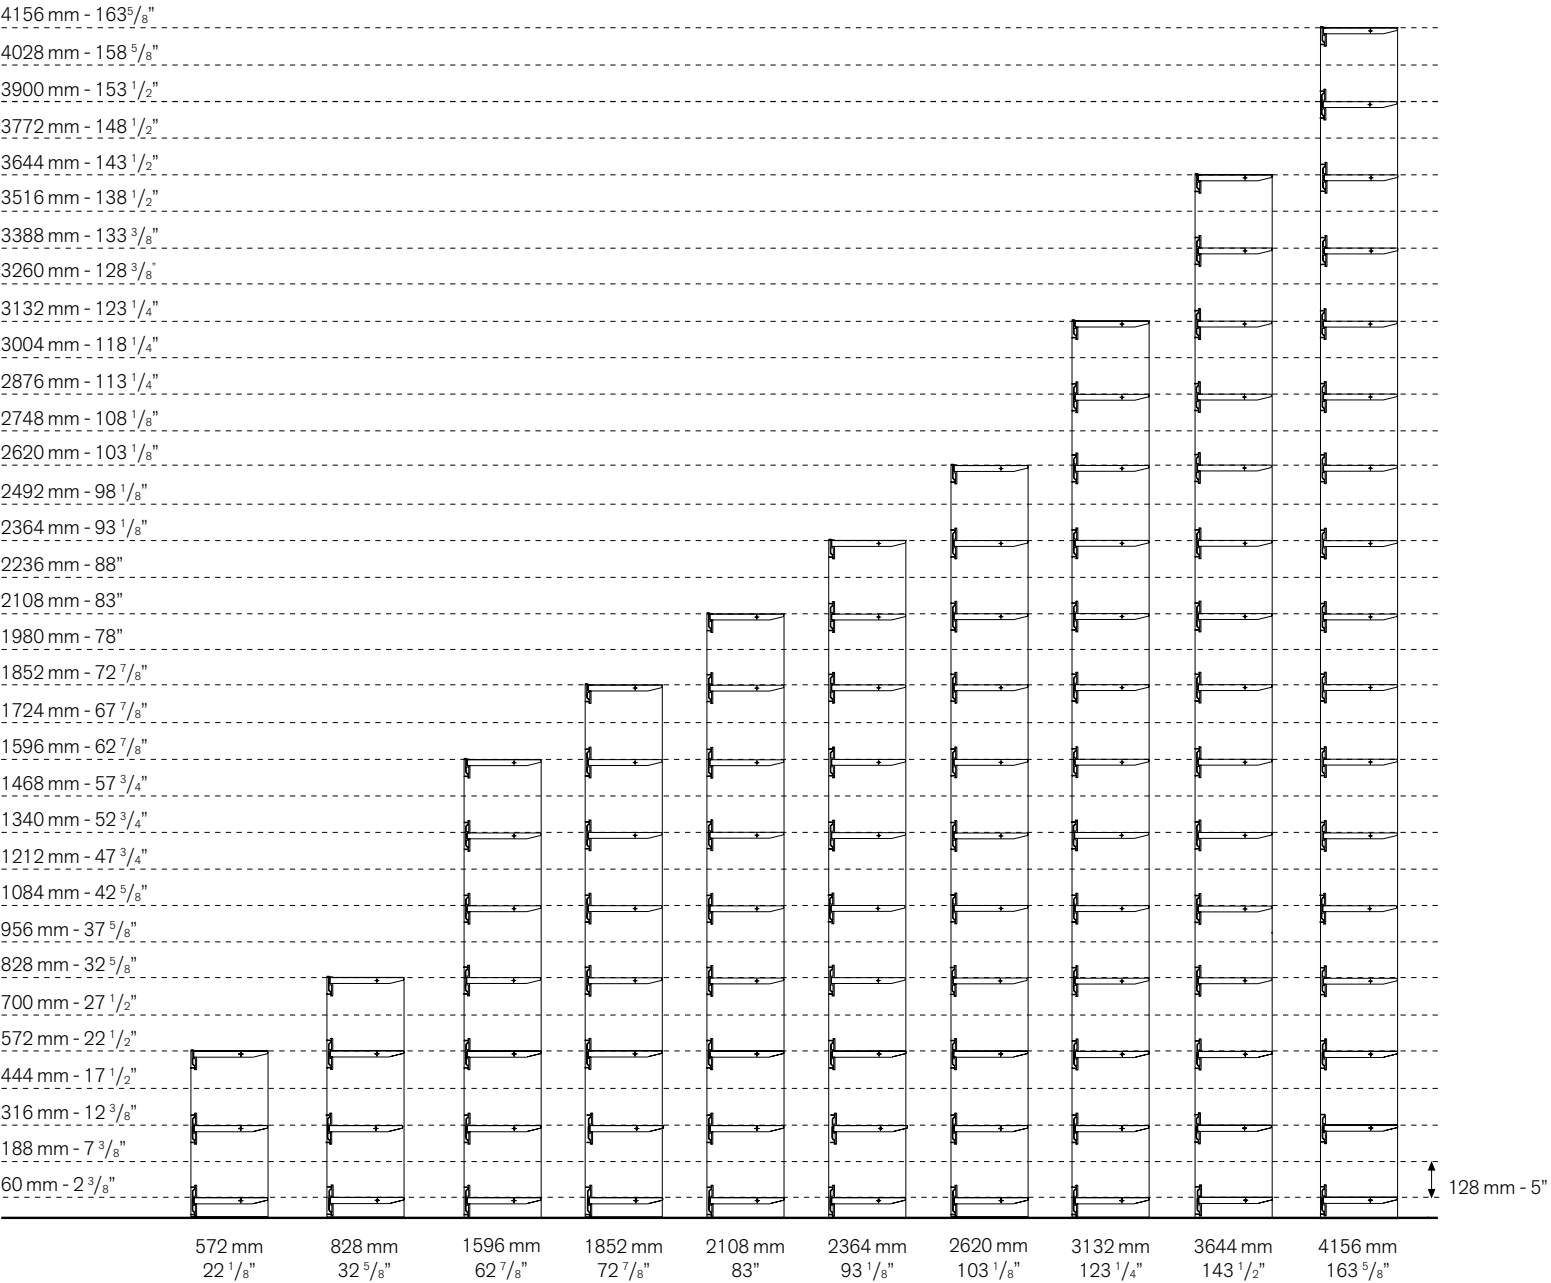

N.B.: IN PROSSIMITÀ DEGLI ELEMENTI SPORGENTI SOSPESI OCCORRE ESEGUIRE IL FISSAGGIO A PARETE DELLE RELATIVE TRAVERSE CENTRALI / N.B.: NEAR THE SUSPENDED PROJECTING ELEMENTS IT IS NECESSARY THE FIXING TO THE WALL OF THE RELEVANT CENTRAL CROSSPIECES

Altezze

Per i fianchi laterali e centrali sono disponibili 10 altezze. È possibile il taglio a misura.

Heights

10 heights are available for lateral and central sides. It is possible the cut to size.

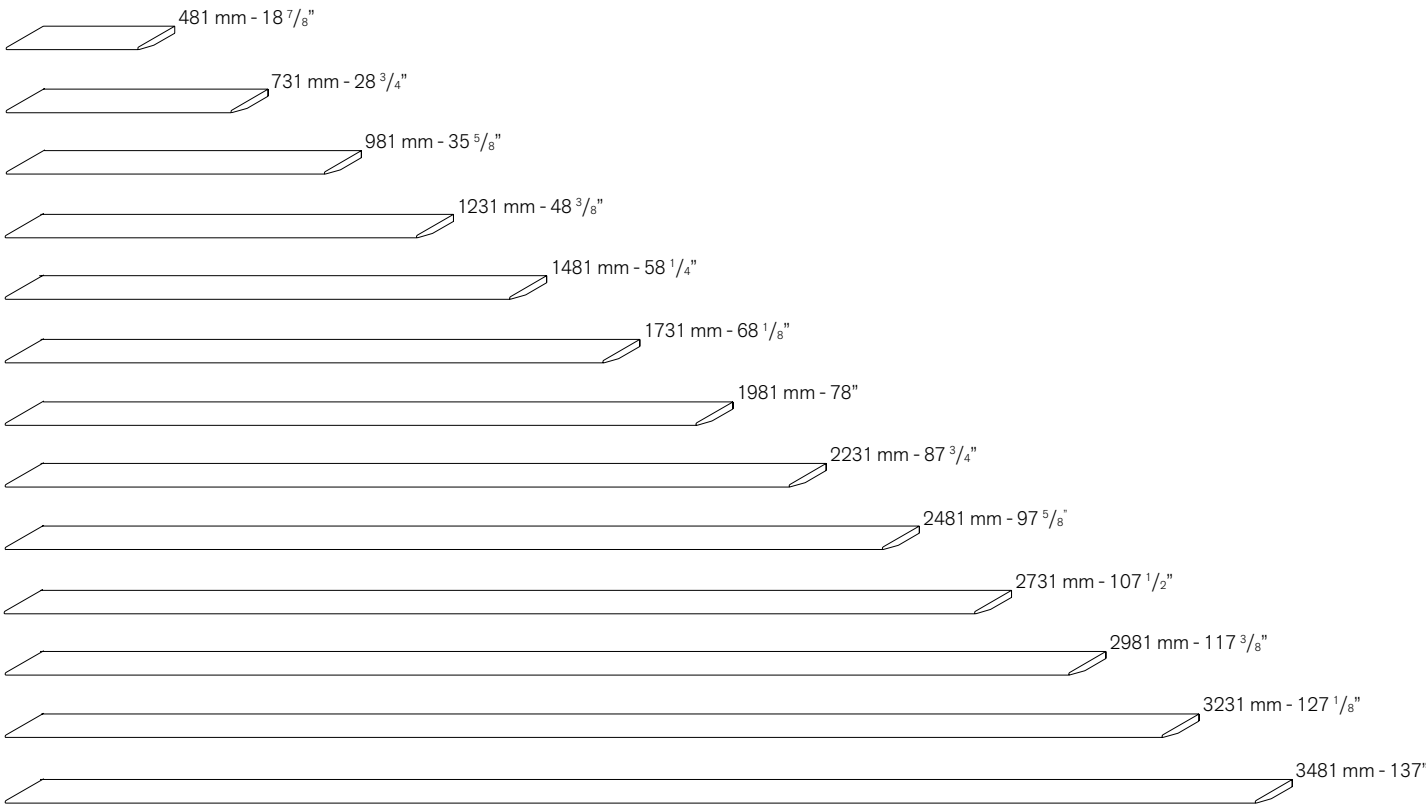

Larghezze

Sono disponibili 13 lunghezze per i piani orizzontali. È possibile il taglio a misura.

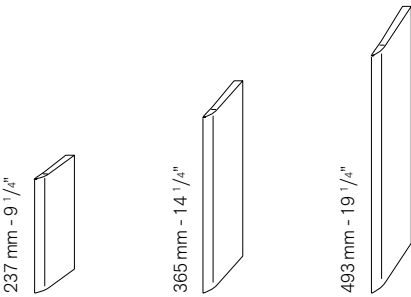

Lenghts

13 lengths are available for horizontal tops. It is possible the cut to size.

Fianchi divisori

Sono disponibili 3 altezze dei fianchi divisori, posizionabili ogni 250 mm sulla lunghezza del piano orizzontale. Taglio a misura in altezza fino a 237 mm. Profondità 250 mm.

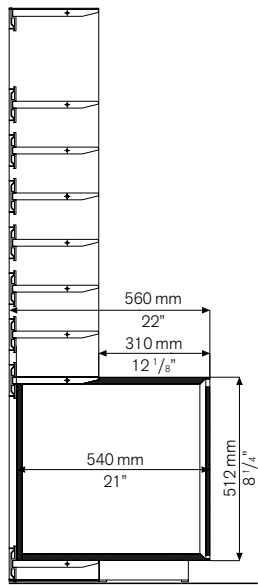

Spacers

3 heights are available for the spacers, which can be positioned every 250 mm - 9 7/8" along the length of the horizontal top. Height cut to size until 237 mm - 9 3/8". Deep 250 mm - 9 7/8".

Profondità elementi a terra

Alla profondità di base di 250 mm possono aggiungersi elementi con differenti funzioni e profondità.

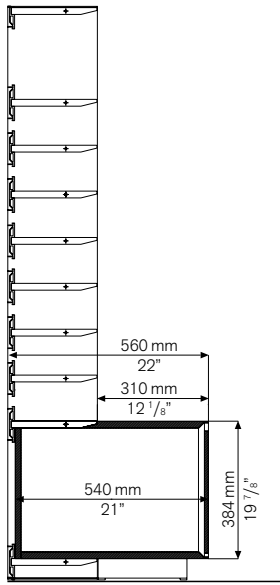

Elemento sporgente con anta complanare posizionabile a terra /

Projecting element with flush sliding door positionable on floor

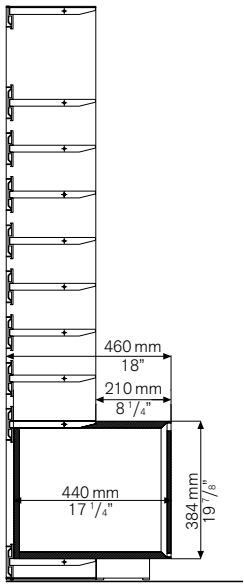

Floor elements depth

To the base depth of 250 mm - 9 7/8", elements with different functions and with greater depths can be added.

Elemento sporgente con cassetto anta ribalta posizionabile a terra /

Projecting element with drawer flap door positionable on floor

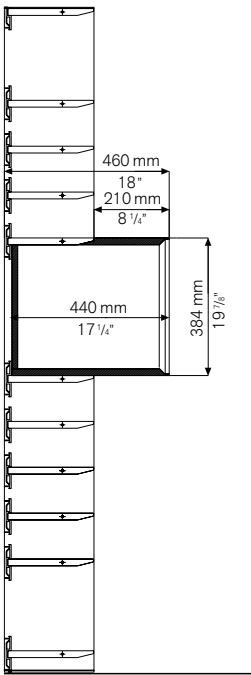

Elemento sporgente con anta ribalta posizionabile a terra /

Projecting element with flap door positionable on floor

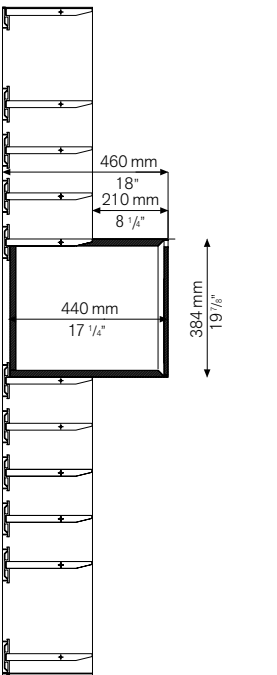

Profondità elementi sospesi

Alla profondità di base di 250 mm possono aggiungersi elementi con differenti funzioni e profondità.

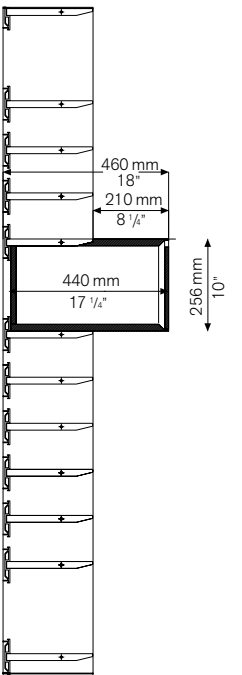

Elemento sporgente a giorno posizionabile sospeso /

Open projecting element suspended position

Elemento sporgente con anta a ribalta posizionabile sospeso /

Projecting element with flap door suspended position

Elemento sporgente con cassetto posizionabile sospeso /

Projecting element with drawer positionable sospeso

Suspended elements depth

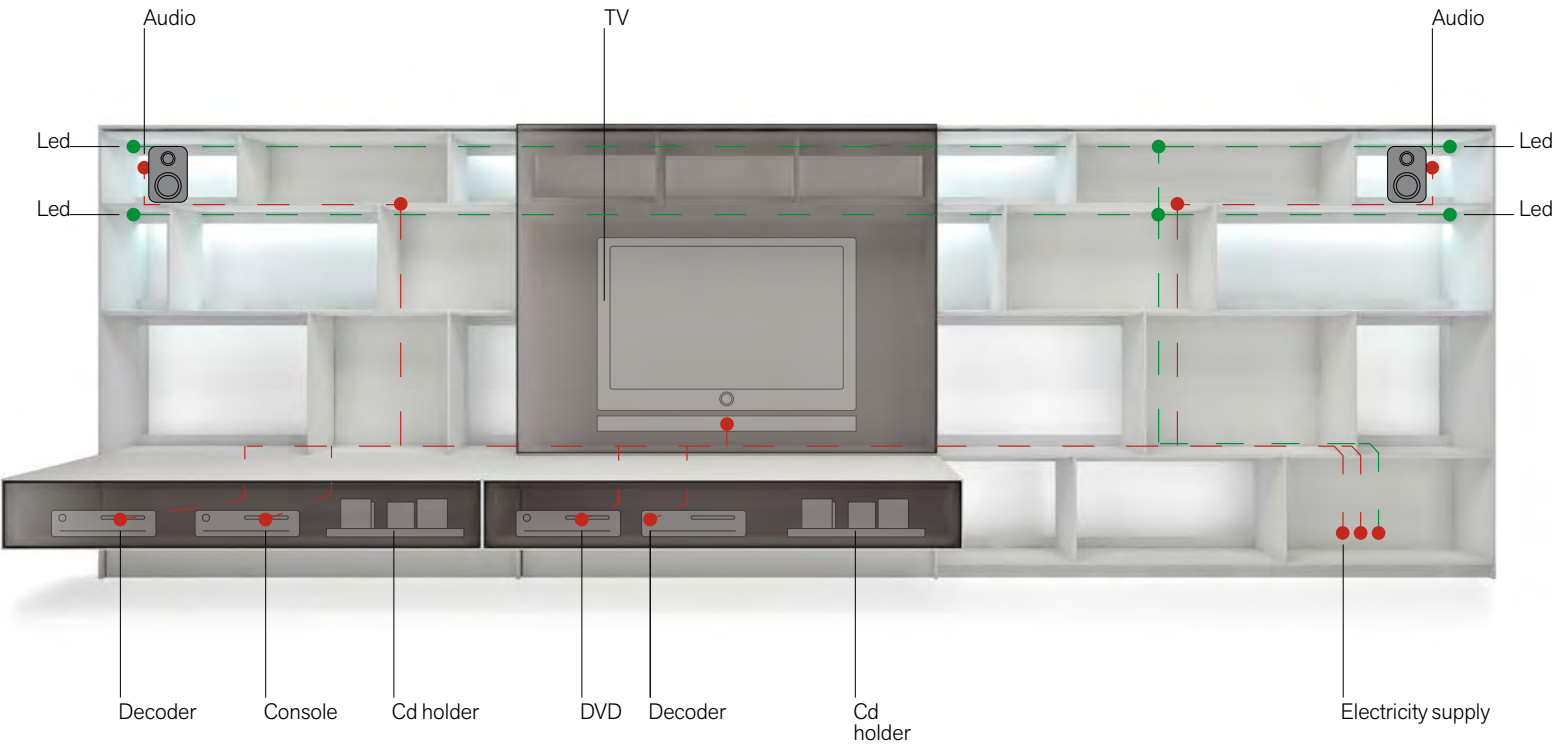

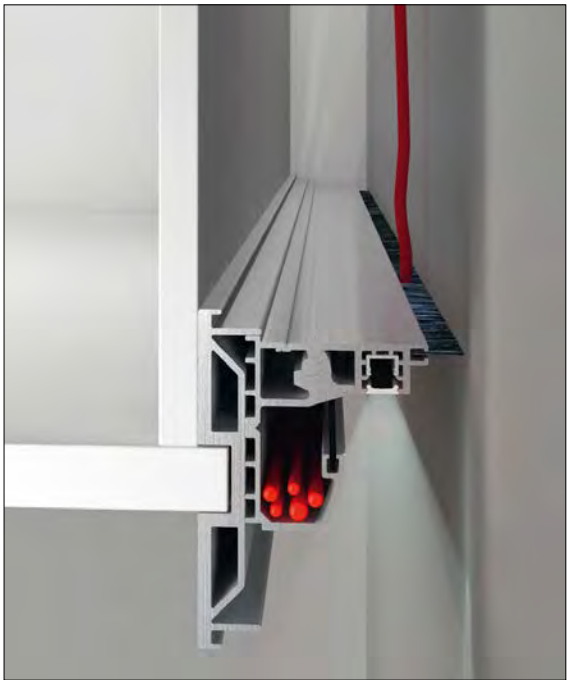

To the base depth of 250 mm - 9 7/8", elements with different functions and with greater depths can be added.

Elettrificazione

Un sistema di schienali, piani e canaline ispezionabili nasconde il passaggio dei cavi di elettrificazione con soluzioni sia pratiche che estetiche. Sistema di illuminazione modulare di barre “LED” in bassa tensione incorporato nella canalina passacavi, dotato di interruttore “touch” e funzione di regolazione (dimmer) dell'intensità luminosa.

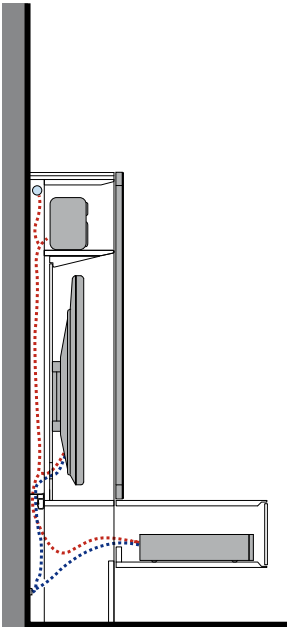

Electrification

A system of back panels, top panels and cable trough which can be opened for inspection conceals the electrical wiring in a practical and attractive way. A low tension modular LED bar lighting system is incorporated into the cable trough, with a “touch” switch and dimmer regulator.

B&B Italia prosegue nello sviluppo dei prodotti studiati per interpretare le esigenze dell'abitare contemporaneo, tenendo sempre alto il livello di ricerca e sperimentazione tecnologica. Il sistema Pab di Studio Kairos si è affermato per le sue molteplici capacità compositive e funzionali, accostamenti di volumi pieni e vuoti che gli conferiscono una precisa identità grafica. Elementi contenitori sospesi o posizionabili a terra, si integrano con mensole e pannelli home-video arredando aree giorno e notte e rispondendo perfettamente alle nostre esigenze, funzionali ed estetiche. Una personalizzazione importante è rappresentata dalle finiture che, diversamente abbinare, ne trasformano lo spirito, pur mantenendo inalterate le sue caratteristiche progettuali. Legno di rovere chiaro spazzolato, rovere nero spazzolato, rovere grigio, rovere fumigato, alluminio satinato, laccature sia satinare che lucide, in sedici colori e vetri nelle finiture riflettente bronzato, riflettente bronzato verniciato, nero o bianco perla: la scelta così ampia di finiture e cromie, insieme alla varietà degli elementi, permette soluzioni del tutto personali e su misura.

B&B italia makes another move forward in the creation of products designed to interpret the needs of modern living, while always keeping a high level of sophistication and technological experimentation. The Pab system by Studio Kairos stands out for its many functional applications and variety of compositions, combinations of open shelves and storage units that give it a precise graphic identity. Wall mounted or floor-standing storage elements can be integrated with shelves and audio visual units to create storage for living or bedroom areas and perfectly satisfy our functional and aesthetic needs. Finishes make up an important part of this identity. Different combinations can transform the look of the furniture, without altering its functional characteristics. Pab is available in many finishes including oak in several finishes (light brushed, black brushed, grey and smoked) satined aluminium, sixteen different lacquered colours, both satined and glossy; and in the bronze reflective, painted bronze reflective, black or pearl white glass. The vast choice of finishes and colourways, along with the variety of storage modules, makes it possible to obtain personalised, made-to-order solutions.

_01

Pab Mensole / Shelves

La mensola, elemento base del sistema Pab, frutto di una complessa progettazione e ricerca su materiali e tecnologie, esprime l'eleganza della semplicità, la qualità dei dettagli, il rispetto dell'ecologia. La mensola nella finitura legno ha i bordi in legno; nelle versioni alluminio, verniciata satinata o verniciata lucida, i bordi sono neri.

The shelf, the cornerstone of the Pab system, is the result of a complex design procedure experimenting with materials and technology. It conveys the elegance of simplicity, quality of details and respect for the environment. Shelves with wood finishes have wood edge details; aluminium and satin-finish or glossy painted shelves have black edge details.

NELLE PAGINE SUCCESSIVE_NEXT PAGES:
CHARLES CHAISE LONGUE

Le mensole sospese, vincolate ad un apposito sistema di aggancio a parete, garantiscono flessibilità e dimensioni a misura grazie al loro modulo di 600 mm. Nella pagina accanto e nella doppia pagina successiva, la composizione accosta mensole e panca in rovere chiaro spazzolato a schienali verniciati satinati colore caffè. La panca è disponibile solo nelle finiture legno e nelle lunghezze 1200 mm o 1800 mm.

The wall mounted shelves are fixed to the wall using a specially designed wall bracket, and the 600 mm - 23 ⁵/₈" module guarantees flexibility and custom dimensions. On the facing page and on the two next pages, the composition is accompanied by shelves and a bench in light brushed oak with back panels finished in satin-finish lacquer in a coffee colour. The bench is only available in the wood finishes and lengths 1200 mm - 47 ¹/₄" or 1800 mm - 70 ⁷/₈".

Pab Ante scorrevoli / Sliding doors

Il tema della libreria può essere integrato con quello del contenimento risolto con ante scorrevoli, posizionabili liberamente tra le mensole dotate di un sistema di scorrimento perfettamente integrato con i profili.

L'anta ad un modulo è disponibile in due larghezze: 1200 mm e 1800 mm. L'anta a modulo quadrato di grande dimensione è disponibile in una sola larghezza (1200 mm)

The bookcase concept can be integrated with the storage concept by adding sliding doors, designed to be freely positioned between shelves fitted with a sliding system that integrates perfectly into the profiles.

The single module door is available in two widths, 1200 mm - 47 1/4" and 1800 mm - 70 7/8". The large square module door is available in only one width of 1200 mm - 47 1/4"

Leggeri tiranti che paiono dei segni uniscono i piani orizzontali agli schienali verticali. L'insieme diventa una sottile superficie continua di appoggio. Oltre la versione originale in acciaio color nickel si aggiunge la finitura “black” ottenuta mediante uno speciale processo di verniciatura per “cataforesi”.

Thin tie-rods join the shelves to the backrests, forming a graphical feature and creating a slender and continuous support surface. The original nickel coloured steel version is complemented by one with a black finish, obtained by means of a special electrophoretic coating process.

L'anta scorrevole ad L rovesciata con apertura soft scorre sui binari perfettamente integrati nella struttura della mensola stessa e rompe così gli schemi della libreria lineare generando volumi pieni e vuoti e presentandosi in versione dinamica.

A reversed-L-shaped sliding door with a soft closing system slides on tracks that are perfectly integrated into the shelf structure. It revolutionises the concept of the linear bookcase by creating open and closed storage elements and becoming a dynamic element.

_03

Pab Contenitori a terra e sospesi / Floor and suspended storage units

Articolata in numerosi configurazioni, Pab si presenta anche come un sistema di contenitori a terra di profondità 575 mm, appoggiati su zoccoli in alluminio anodizzato nero o basamenti in acciaio colore nickel o colore nero. Una serie di contenitori sospesi ha la medesima profondità delle mensole di mm 390. Grazie alla numerose varianti tipologiche e dimensionali dei contenitori, essi possono essere anche disallineati, accostando elementi doppi e singoli a cassetti o con anta a ribalta, attrezzabili con piani di vetro.

Pab can be arranged in several different configurations. It also can be used as a system of floor standing storage containers with a depth of 575 mm - 22 ⁵/₈", set on the floor on black anodized aluminium baseboards or on nickel or balck coloured steel base-frames. A series of wall munted modules the same depth as the shelves, 390 mm - 15 ³/₈". Thanks to the great number of compositions and sizes of the modules, they can be installed off centre, combining double and single elements with drawers or flap doors.

Elementi singoli verticali possono essere utilizzati come totem componendo graficamente una parete. In queste immagini, gli elementi verticali sospesi sono attrezzati a ripiani e, accostati tra loro in diversi colori, rimandano all'arte minimalista.

Single vertical elements can be used like totems to put together a graphic composition on the wall. These pictures show them in different coloured elements mixed together and accessorised with shelves. The wall mounted vertical elements create a look of minimalist art.

04

Pab Piani multifunzionali / multipurpose tops

Esporre, sorreggere, appoggiare; il sistema Pab si arricchisce di piani multifunzionali di forte spessore e di pannelli a muro con mensole dallo spessore sottile e profondità ridotte. Una particolare soluzione tecnica e di materiali dà la possibilità di scegliere il verso del montaggio per aumentare o ridurre la dimensione del vano sottostante.

Designed for displaying, supporting and placing accessories: the Pab system is enriched with thick multipurpose counter tops and wall-mounted panels fitted with thin narrow shelves. The original technical solution and choice of materials offers the choice of assembly direction to either increase or reduce the size of the underlying area.

TECHNICAL PAGES

Eucalipto è il nome di una serie di contenitori da ambientare nel living e nella zona pranzo o dove si desidera la presenza di un focus speciale. Eucalipto arricchisce la collezione B&B Italia di un'impronta sofisticata, apparentemente distonica, suggerendo accostamenti glamour inediti.

Eucalipto is the name of a series of units designed for the living room, dining room or wherever a special focus is required. Eucalipto enriches B&B Italia's collection with a sophisticated touch suggesting original glamorous combinations.

_01

Eucalipto Contenitori / Storage units

Il vero coup de théâtre è la finitura acrilica levigata che si declina in tre varianti all'esterno con diversi abbinamenti per ante e cassetti: struttura nera con ante e cassetti in specchio grigio, in vetro retro-verniciato nero o in legno eucalipto frisé con finitura lucida; struttura bronzo con ante e cassetti in specchio bronzato, in vetro retro-verniciato bronzo o in legno eucalipto frisé con finitura lucida; struttura blu petrolio con ante e cassetti in specchio grigio, in vetro retro-verniciato blu petrolio o in legno eucalipto frisé con finitura lucida.

For the carcass acrylic finish that develops in three variants with different combinations for doors and drawers: black structure with doors and drawers in grey mirror, in black back-painted glass or in eucalyptus frisé wood with glossy finish; bronze structure with doors and drawers in bronzed mirror, in bronze back-painted glass or in eucalyptus frisé wood with glossy finish; teal blue structure with doors and drawers in grey mirror teal in teal blue back-painted glass or in eucalyptus frisé wood with glossy finish.

All'interno, i ripiani in vetro fumé e i vassoi estraibili regalano una sfumatura di luce siderale ad ogni contenitore Eucalipto, che si posa direttamente a pavimento oppure poggia su sostegni in pressofusione, a due altezze, verniciati cromati neri o verniciati peltro. Un altro plus del contenitore Eucalipto è che può essere rifinito anche sul retro per tenere la scena a centro stanza, creando una sorta di separazione forte e scenografica.

Inside, smoky glass shelves and pull-out trays enhance every Eucalipto storage unit with a shade of sidereal light, whether it is designed to be directly placed on the floor or on die-cast legs, in two heights, painted black chrome or pewter painted. An additional feature presented by Eucalipto is that every storage unit can also have a finished back to be centrally placed in a room, creating a sort of powerful and scenic partition.
