

# Design on Stage

Modernity in all its coherence, built on research and formal harmony with close attention to detail and consistent materials and finishes: this is B&B Italia's new collection as presented at the Milan 2019 Salone del Mobile.

Just like in the timeless telling of a story that knows no bounds, innovations appear alongside re-editions of what have (now) for some time been considered international classics.

The concept is clear and each element plays a carefully-defined role that brings out its inherent qualities with the utmost naturalness; it is in these shades of character, personality and language that the overall project finds its uniqueness and exceptionality.

Una chiara idea di modernità, fatta di ricerca, armonia formale, cura del dettaglio, coerenza tra materiali e finiture: è la nuova collezione B&B Italia.

Come nel flusso di un racconto senza tempo né confini, alle nuove creazioni si affiancano riedizioni di pezzi di design considerati dei classici internazionali.

Un concept preciso, in cui ogni soggetto occupa con naturalezza un ruolo definito, che consente di esprimere le proprie peculiarità: perché sono le differenze di carattere, personalità e linguaggio a rendere unico e straordinario il progetto generale.

After spending  
some time on Dock,  
you can leave the port  
and set sail for  
unfamiliar places,  
rested, and refreshed.

Dopo aver trascorso un po' di tempo su Dock,  
si potrà lasciare il porto e salpare verso nuovi approdi,  
riposati e ricaricati.

The new upholstered Dock seat system by Piero Lissoni is a safe haven in the home. The Dock's shape is based around a solid platform which supports the eclectic compositions that span horizontally. The platform is a dynamic element, which extends for the sofa's entire length to form a base. The narrower armrest is available in two depth sizes and is generously padded like the backrest. The cushions play with sizes and proportions, making it possible to create double-sided, corner and chaise longue compositions, with or without backrests which are suitable for the centre of the room or more traditional settings. The armrests and seat cushions have elegant tone-on-tone stitching.

Il nuovo sistema di imbottiti Dock di Piero Lissoni si presenta come un approdo sicuro nel panorama domestico. Il pianale è la piattaforma attorno alla quale prende forma Dock. La sua forte presenza materica sottolinea con decisione la vocazione orizzontale di questo eclettico sistema. Il pianale diventa un elemento dinamico, poiché si allunga ai lati per formare un piano d'appoggio. Il bracciolo è sottile, con due profondità, generosamente imbottito così come lo schienale. Anche i cuscini giocano con dimensioni e proporzioni, rendendo possibile la creazione di composizioni bifacciali, angolari, chaise-longue, con o senza schienale, adatte al centro stanza ma anche a soluzioni più tradizionali. I cuscini bracciolo e i cuscini seduta presentano una elegante cucitura con profilo tono su tono.

Dock can also be developed vertically and is equipped with accessories that allow for a varied landscape to be created. It is in fact possible to insert extra elements between the seat cushions such as padded or lacquered and wooden armrests. On the platform elegant service elements can be placed. They are available with oval or round top in glass, wood or lacquered. These supporting elements for the body and objects provide further choices, for a visual rhythm which gives additional possibilities to experience and conceive the system. The Dock system is accompanied by a series of complementary elements. A large low table in two sizes becomes a generously sized platform. Rectangular or square, it has the same design and finish as the sofa base canaletto walnut, light grey, black and smoked oak.

Dock si sviluppa anche in verticale ed è dotato di accessori che permettono di creare un panorama variegato. Tra i cuscini della seduta si possono infatti inserire elementi extra quali confortevoli braccioli imbottiti oppure laccati o in essenza. Sul pianale è possibile prevedere l'inserimento di eleganti tavolini con piano ovale o tondo in vetro, legno o laccato. Questi elementi di appoggio per il corpo e per gli oggetti sono in grado di garantire ancora maggiore scelta, in un ritmo visivo che offre ulteriori possibilità di vivere e concepire il sistema. Il sistema Dock nasce accompagnato da una serie di elementi complementari, che ne arricchiscono la natura enciclopedica. Un ampio tavolo basso in due formati diventa una piattaforma di dimensioni generose. Rettangolare oppure quadrato, si presenta con l'identico disegno e la medesima finitura della base del divano, ovvero noce canaletto, rovere chiaro, rovere grigio, rovere nero e rovere fumigato.

The comfortable soft padding creates a peaceful harbour, which can be further defined by the possibility to select from different depths and heights. Three depths that can be combined with a 41 cm seat height, or with a lower 27 cm version which is almost ground level to create a far-Eastern inspired composition. After spending some time on Dock, you can leave the port and set sail for unfamiliar places, rested, and refreshed.

La comodità delle soffici imbottiture crea un porto tranquillo, il cui carattere può essere ulteriormente definito dalla scelta delle profondità e delle altezze. Infatti, le tre profondità possono essere combinate con un'altezza della seduta da 41 cm, ma si può scegliere anche una versione da 27 cm, quasi rasoterra, per accomodarsi all'orientale. Dopo aver trascorso un po' di tempo su Dock, si potrà lasciare il porto e salpare verso nuovi approdi, riposati e ricaricati.

Like a suspended bridge or a flying carpet, this gentle object conceives a new visual and perceptive balance which is elegant and comfortable.

Come un ponte sospeso o un tappeto volante, questo oggetto garbato concepisce un nuovo equilibrio visivo e percettivo, tanto elegante quanto confortevole.

The B&B Italia 2019 collection introduces Pablo, a new seat by Vincent Van Duysen. Its strengths are comfort and firmness, which combine to form high-impact aesthetic and structural solutions. Pablo has a double thick leather layer with light seat padding which is barely visible but capable of ensuring comfort. The appealing shape is defined by an accentuated depth and a slightly inclined front: Pablo suggests new proportions, calibrated to the millimetre, which make this seat an innovative meeting point between small armchair and chaise longue. The structure wraps around the body and is suspended. It appears to be flying because it is simply fitted into the backrest and inserted into the armrests. The designer's meticulous attention to detail found a true ally in B&B Italia Research & Development Centre which understands that the most essential products require a lot of work and special care. The result is noticeable in the constant play between the straight and curved lines, the relationship between the lightness of the wood, the strength of the raw-cut leather and the structural elements' vertical shape being softened by a curved section. Like a suspended bridge or a flying carpet, this gentle object conceives a new visual and perceptive balance which is elegant and comfortable.

La collezione B&B Italia 2019 introduce Pablo, una nuova seduta di Vincent Van Duysen. I suoi punti di forza sono la comodità e la decisione, che si uniscono a formare soluzioni estetiche e strutturali di forte impatto. Pablo presenta un doppio telo di cuoio che nella seduta custodisce una leggera imbottitura, appena percettibile alla vista ma capace di garantire comodità. La forma invitante è definita da una profondità accentuata e da un fronte leggermente inclinato: Pablo suggerisce proporzioni inedite e calibrate al millimetro, che rendono questa seduta un innovativo punto di incontro tra poltroncina e chaise longue. La struttura avvolge il corpo ed è sospesa, fluttuante, sembra volare poiché semplicemente calzata nello schienale e infilata nei braccioli. La meticolosa ricerca del dettaglio da parte del progettista ha trovato un valido alleato nella precisione del Centro Ricerche e Sviluppo B&B Italia, dove ben sanno che i prodotti più essenziali richiedono molto lavoro e una cura speciale. Il risultato si nota soprattutto nel contrappunto costante di linee rette e rotondità, nel rapporto tra la leggerezza del legno e la forza del cuoio tagliato a vivo, ma anche nel taglio degli elementi verticali della struttura ingentiliti da una sezione curva. Come un ponte sospeso o un tappeto volante, questo oggetto garbato concepisce un nuovo equilibrio visivo e percettivo, tanto elegante quanto confortevole.

This bookcase system started as a stacking exercise of an assembly of rods of the same diameter. Its discipline lies in the structural rules used to build from one form to the next.

Questo sistema di libreria è nato come esercizio di assemblaggio di tondini dello stesso diametro. La sua disciplina deriva dalle regole strutturali utilizzate per passare da una forma a quella successiva.

After last year's great success, Jack returns with a range expanded by new structures, finishes and modules. In addition to the clean vertical floor to ceiling upright, Anastassiades has designed a new rod to be fixed to the wall, making Jack suitable for all those spaces that cannot provide the vertical anchorage for a bookcase.

Dopo il grande successo dello scorso anno, Jack ritorna e amplia la sua gamma con nuove strutture, nuove finiture e nuovi moduli. Oltre al pulitissimo montante verticale da pavimento a soffitto, Anastassiades ha disegnato una nuova asta da fissare a parete, rendendo Jack adatto a tutti quegli spazi che non possono prevedere l'ancoraggio verticale della libreria.

Together with the new structure (which can reach up to 328 cm in height), the growing family of elements have been combined to provide new, deeper shelves, storage elements such as drawers and flap doors. The precise technical solutions for the flap doors include an interesting cable-rolling system and a single elegant hinge that crosses the door along its length.

Insieme alla nuova struttura (che può arrivare fino a 328 cm di altezza), cresce la famiglia degli elementi da combinare, con nuovi ripiani più profondi, elementi contenitori come cassetti e ribalte. Le accurate soluzioni tecniche delle ribalte prevedono un interessante sistema a cavetto avvolgibile e un'unica elegante cerniera che attraversa l'anta per tutta la sua lunghezza.

All the elements are available in black and white satin, to which canaletto walnut is added as an option for the tops and storage units and four oak finishes: light, grey, black and smoked. With these new additions, Jack is becoming a contemporary classic and a platform for countless stories and styles.

Tutti gli elementi prevedono la finitura satinata bianca e nera, a cui si aggiungono per i piani e i contenitori anche noce canaletto e quattro varianti di rovere, ovvero chiaro, grigio, nero e fumigato. Grazie a queste nuove integrazioni, Jack si avvia a diventare un classico contemporaneo, una piattaforma che sarà la base per innumerevoli storie e stili.

Two imposing aluminium bars joined by two side supports is the concept for the first table designed by Michael Anastassiades for B&B Italia. A basic structure with a minimal and essential vision, a concept that becomes an object. The search for extreme simplicity is often accompanied by the need to find cutting-edge technical solutions, and Parallel Structure is the perfect example. To respect the project's purity, great attention was paid to the detailing of the joins, the relationship between cleanliness of form and structural elements and the combination of different materials. The legs are in solid wood, while the side supports, architraves connecting the coloured aluminium bars, hide a metal core, necessary to provide solidity and greater visual lightness to the structure. The collection includes two sizes and tops in different materials: canaletto walnut and four variants of oak, light, grey, black and smoked, for a choice that favours minimal aesthetics or glass, which enhances the beauty of the engineering process through transparency. This table creates a pure and monolithic presence, where apparent simplicity erases all that is superfluous. Starting from its name, Parallel Structure is a product that naturally brings an architectural approach to the design world.

La presenza materica di due imponenti barre di alluminio semplicemente unite da due ponti laterali: questo il concetto che ha generato il primo tavolo di Michael Anastassiades per B&B Italia. Una struttura di base, una visione minima ed essenziale, un segno che diventa oggetto. Ma sappiamo che la ricerca della semplicità estrema si accompagna spesso alla necessità di trovare soluzioni tecniche d'avanguardia e Parallel Structure rappresenta l'esempio perfetto di questa tensione. Per rispettare la purezza del progetto, grande attenzione è stata dedicata allo studio delle giunzioni, al rapporto tra pulizia della forma ed elementi strutturali, al matrimonio tra materiali di natura molto diversa tra di loro. Le gambe sono in legno massello, mentre i ponti laterali, vere e proprie architravi che connettono le barre colorate in alluminio, nascondono un'anima in metallo, necessaria per fornire solidità e maggiore leggerezza visiva all'intera struttura. La collezione prevede due misure e piani in materiali diversi, legno di noce canaletto e quattro varianti di rovere: chiaro, grigio, nero e fumigato, per una scelta che privilegia un'estetica minima oppure vetro che attraverso la trasparenza esalta la bellezza del processo di ingegnerizzazione. Questo tavolo crea una presenza monolitica, pura e asciutta, dove la semplicità apparente cancella tutto ciò che è superfluo, rifiuta ogni manierismo. A partire dal nome, Parallel Structure si propone come un prodotto che porta con naturalezza nel mondo del design un approccio progettuale di matrice architettonica.

Bull expresses  
the feeling of a sturdy  
but extremely  
refined product at  
the same time.

Bull, nasce con l'intento di trasmettere  
la sensazione immediata di un oggetto di grande solidità,  
al contempo estremamente raffinato.

As suggested by the name, Bull was designed as a table that conveys the strength and robustness of the legs, and now the collection has been expanded to include a bench with the same features. A stylish design implemented with subtle structural tension between the elements: the wide legs with round section that, despite at a slight diagonal tilt, convey the sensation of being firmly “grounded”, which supports a delicately placed lightweight top, a contrasting feature to the legs. Simple cushions on the bench top complete the product, adding a touch of comfort.

Come suggerisce il suo nome, Bull nasce come un tavolo le cui gambe poggiano solidamente a terra ed ora si amplia con l’inserimento di una panca dalle medesime caratteristiche. Una formula stilistica che si riesce a raggiungere attraverso una sottile tensione strutturale tra gli elementi: le gambe dalla generosa sezione tonda che, sebbene leggermente inclinate, danno la sensazione di essere solidamente “piantate a terra” a reggere, per contrasto, un piano sottile che appare come fosse semplicemente appoggiato sulla struttura. Dei cuscini essenziali appoggiati sul piano della panca donano il corretto comfort e completano il progetto.

Butterflies in flight.  
The design image was  
that of a seat that  
would “welcome”  
gracefully, with the  
graceful movement of  
a butterfly, which in  
Latin is called a papilio.

Il volo della farfalla. La visione progettuale è quella  
di una seduta che “accoglie” con grazia, la bellezza del movimento  
di una farfalla che in lingua latina si chiama appunto papilio.

The successful Papilio seating collection is expanded with the Papilio stool with the choice of two height options. Naoto Fukasawa, who favours the comfort of this product over the shape of the design, says, "I wanted the seat to look naturally comfortable, with the same shape relaxation would have if it were depicted with an image". The wings - armrests - placed on the sides of the seat enhance the comfortable feel. They support both sides and back of the stool.

Lo sgabello Papilio, disponibile in due altezze, completa e amplia una serie di sedute di grande successo, caratterizzate da una iconicità distintiva. Naoto Fukasawa, che all'interesse per le forme antepone quello per i comportamenti delle persone, afferma: "Volevo che la seduta apparisse confortevole in modo naturale, che avesse la stessa forma che potrebbe avere il relax se fosse rappresentato da un'immagine". Sono proprio "le ali" che si protendono ai lati della seduta che enfatizzano la sensazione di comfort, fungendo da supporto ai fianchi e alla schiena.

This design recalls several historic models: from the nineteenth century “shaker” chairs to the 1950s-style chairs, all the way back to memories of the Ming dynasty.

Numerosi i riferimenti a modelli storici ripresi in questo progetto: dalle sedie “shaker” dell’ottocento alle sedie degli anni cinquanta del novecento, passando per le memorie della dinastia Ming.

Jens is a seating collection with a striking personality. It stands out for the explicit reference to the past, in terms of both style and materials. Combining classical and contemporary concepts, it is an exquisite piece, with expert craftsmanship shown in the curve of the wood. Moreover, the version with either cellulose rope or leather seat emphasizes the refined details and characteristics of the project. In 2019 the collection has expanded, with the addition of a stool with either a wooden or cellulose rope seat, depending on the colour combinations of the product.

Jens è una serie di sedute dalla forte identità, riconoscibile grazie ad un esplicito richiamo alla memoria sia nelle scelte stilistiche che nei materiali. Classica e contemporanea al tempo stesso rappresenta un pezzo di grande pregio che riscopre la manualità artigianale del legno tornito e curvato cui si aggiunge la versione con seduta in corda di cellulosa o in cuoio ad impreziosire e caratterizzare il progetto. Nel 2019 la collezione si amplia nelle funzionalità con l'introduzione di uno sgabello con seduta in legno o in corda di cellulosa secondo accostamenti cromatici definiti.

Rigorous lines, order,  
essential features.  
The minimal style  
emphasises the  
exceptional quality of  
materials and of  
production methods.

Rigore, ordine, essenzialità.  
Lo stile minimale mette in risalto la grande qualità dei materiali  
e delle lavorazioni per un pezzo di design intramontabile.

Rigorous lines, order, essential features. The minimal style emphasises the exceptional quality of materials and of production methods. Available in different sizes, the low table Pianura features a supporting frame in bright brushed aluminium, or painted in pewter or black chrome, upon which rests a thin top, which can be either made of matt white Carrara marble or matt black Marquinia marble, or the collection's various wood types. A practical thick leather-lined compartment can be added centrally on top for an elegant graphic detail.

Rigore, ordine, essenzialità. Lo stile minimale mette in risalto la grande qualità dei materiali e delle lavorazioni. Disponibile in varie dimensioni, il tavolino Pianura è composto da una elegante struttura in alluminio spazzolato lucido, verniciato peltro o verniciato cromato nero, che sostiene un sottile piano in marmo bianco Carrara, nero Marquinia opaco oppure in essenza, nelle varie finiture presenti in collezione. È possibile inoltre inserire al centro del piano un pratico vano divisorio rivestito in cuoio che dona un raffinato dettaglio grafico.

Study drawing for Diesis design /  
Disegno di studio per il progetto  
di Diesis.

Diesis is not only a B&B Italia classic, but an absolute icon of contemporary design. 2019 marks the 40<sup>th</sup> anniversary of the first appearance of Diesis - an important landmark which has been celebrated with some design and structural updates. These updates return to the original concept while simultaneously advancing the design towards the future. The iconic backrest retains its essential and technical integrity based around the structural steel core, composed of metal springs which give strength and flexibility. The thick leather covered base and backrest are just like they were 40 years ago, but now have a distinctive Saffiano texture.

A tutti gli effetti Diesis rappresenta non soltanto un classico di B&B Italia, ma un'icona assoluta del design contemporaneo. Il 2019 segna i 40 anni dalla sua prima apparizione, un compleanno importante che viene celebrato con alcuni aggiornamenti di design e costruzione, all'insegna di un ritorno alle origini che allo stesso tempo rappresenta un'ulteriore avanzamento verso il suo futuro. Il caratteristico schienale conserva la sua natura essenziale e tecnica grazie all'anima in acciaio armonico, composta da balestre metalliche che danno robustezza e flessibilità. Come quarant'anni fa, la base e lo schienale tornano ad essere rivestiti in solido cuoio, che per la prima volta si presenta con un'inedita texture Saffiano.

chaise longue

The supporting frame has a timeless elegance, which underlines Diesis' harmony with the vision of the great masters of Modernism. The cushions boast a new leather cover (available exclusively for Diesis 40) that accentuates the product's strength and vigour. This is softened by new and more comfortable upholstery. Reinforced seams and other techniques borrowed from saddlery draw attention to the authentic craftsmanship. Lovers of technical details will appreciate the die-cast lenticular elements of the polished brushed aluminium frame, and the seat structure which is further reduced by using two thick leather-covered coupled sheets. There are many further details to discover in Diesis 40. It is a great classic ready to face the next decades of its life.

La struttura portante conferma la sua eleganza senza tempo e sottolinea la sintonia di Diesis con le visioni dei grandi maestri del Movimento Moderno. I cuscini sono realizzati con un nuovo rivestimento in pelle (disponibile esclusivamente per Diesis 40) che accentua la forza e il vigore di questo prodotto, addolcito tuttavia da una nuova imbottitura ancora più soffice e accogliente. Le cuciture di rinforzo, le tecniche mutuata dalla selleria sono gli elementi che rinnovano l'attenzione per la manualità artigiana più autentica. Gli amanti dei dettagli tecnici apprezzeranno gli elementi lenticolari in pressofusione della struttura in alluminio spazzolata lucida, così come la struttura di seduta ulteriormente assottigliata grazie all'accoppiamento di due lamiera, anch'esse rivestite in cuoio. Sono moltissimi i nuovi dettagli da scoprire in Diesis 40, un grande classico pronto ad affrontare i suoi prossimi decenni di vita.
