B&B
ITALIA

OUTDOOR

The Outdoor Collection

The Outdoor Collection | 2023

The success of B&B Italia Outdoor can be measured by its consistency and results, distinguishing features in the evolution of the collection since its launch in 2007.

B&B Italia was the first company in its category to strive towards developing a range of outdoor furniture, aiming to bring the intrinsic qualities of its indoor collections to outdoor designs, replicating an experience outside the home that was previously only possible inside, without compromising on product excellence.

Today, the strength of that decision is reflected not only in the variety of the offering, but also in the steady growth of sales success.

Values

For B&B Italia, quality means pushing forward and rewriting traditional design codes to create excellent products.

Research and technological innovation are conveyed through the continuous investigation to discover new materials and construction solutions. **Ergonomics and comfort** are expressed in new ways in each outdoor collection to make relaxation tangible without compromising on impeccable aesthetic. **Creativity** is another distinctive trait.

At times subtle, at times obvious, the ability to create the unthinkable is interpreted in different ways that embrace every style. The outdoor collections are capable of enhancing any interior, providing customers and interior decorators with such a choice in terms of range and features.

Sustainability

Being mindful of the environment is particularly relevant when it comes to outdoor living. That's why sustainability has been of intrinsic importance for B&B Italia outdoor since its very first collections.

Even when not made explicit, it is something that has been practised through the use of recycled and recyclable materials, associated with structures that can be easily disassembled.

These steps, and those that will come after, are making the circular economy a concrete reality for B&B Italia, as we move towards a new understanding of design and its industrial processes.

Una storia di successo si misura attraverso coerenza e risultati, fattori che contraddistinguono l'evoluzione della collezione outdoor di B&B Italia, dal suo lancio nel 2007.

B&B Italia è stata di fatto la prima azienda della sua categoria a perseguire con decisione l'idea di una linea di arredi outdoor con l'obiettivo di portare all'esterno le qualità intrinseche delle sue collezioni indoor, senza scendere a compromessi con l'eccellenza del prodotto.

Oggi la forza di tale scelta si rispecchia nella notorietà globale delle collezioni, nella varietà dell'offerta ma anche in un successo di vendite in costante crescita.

Valori

Per B&B Italia qualità significa spinta in avanti e riscrittura dei codici della tradizione per creare prodotti d'eccellenza.

Ricerca e innovazione tecnologica si esprimono attraverso la continua indagine alla scoperta di nuovi materiali e soluzioni costruttive.

Ergonomia e comfort trovano forme di espressione sempre nuove per rendere tangibile un relax che non rinuncia a un'estetica sempre impeccabile.

Non può mancare la **creatività**. A volte sussurrata, a volte palese, troviamo questa capacità di pensare l'impensabile in molte declinazioni che abbracciano ogni stile, offrendo a clienti e interior decorator una scelta unica nel suo genere per ampiezza e caratteristiche.

Sostenibilità

L'attenzione all'ambiente diventa particolarmente rilevante nella vita all'aria aperta. Per questo l'outdoor di B&B Italia ha messo al centro la sostenibilità fin dalle sue prime collezioni. Pensiero costante, anche quando non dichiarato esplicitamente, è stato messo in pratica attraverso l'uso di materiali riciclati e riciclabili, associati a strutture facilmente disassemblabili.

Grazie a questi passi e a quelli che seguiranno, l'economia circolare diventa reale e concreta per B&B Italia, nella direzione di una nuova concezione del design e dei suoi processi industriali.

Nooch

Piero Lissoni

“Nooch is a large connection of small pieces. If you combine them together, the collection becomes a huge family of different dynamic and endless solutions. The name Nooch is in-between England and Asia and means bamboo labyrinth. The structure of the seating system is like a labyrinth but made in aluminum.”

Piero Lissoni

“Nooch è una grande connessione di piccoli pezzi. Se li combini insieme, la collezione diventa una grande famiglia di diverse soluzioni dinamiche e infinite. Il nome Nooch è a metà tra Inghilterra e Asia e significa labirinto in bambù. La struttura del sistema di sedute è come un labirinto, ma realizzata in alluminio.”

Allure O' Outdoor

Monica Armani

“The sculptural shapes of the Allure O’ tables meet the magic of glazed ceramic. The ceramic color so present in the common memory finds a new life. Vibrant, reflective surfaces with unique color depth and transparency renew the allure, in name and in fact, of these objects.”

Monica Armani

“Le forme scultoree dei tavoli Allure O’ incontrano la magia della ceramica smaltata. Il colore ceramico così presente nella memoria comune trova una nuova vita. Superfici vibranti, riflettenti con profondità di colore e trasparenze uniche rinnovano l’allure di nome e di fatto di questi oggetti”.

Flair O' Outdoor

Monica Armani

“To dress the taut and elegant lines of my Flair O’ chair, inspired by the clothes of the 60s, in the outdoor version I thought of a sort of Summer dress with sophisticated transparencies, designing a sort of macro, sinuous and vibrant lace.”

Monica Armani

“Per vestire le linee tese ed eleganti della mia sedia Flair O', ispirate agli abiti degli anni '60, nella versione Outdoor ho pensato a una sorta di abito estivo con delle trasparenze sofisticate, disegnando una sorta di pizzo macro, sinuoso e vibrante”.

Pablo Outdoor

Vincent Van Duysen

“My first collection for B&B Italia’s outdoor line develops the Pablo armchair features and adds layers of softness, and the tables are a link to my architectural world“.

Vincent Van Duysen

“Questa mia prima collezione per la linea outdoor di B&B Italia sviluppa nelle sedute le caratteristiche della poltrona Pablo aggiungendovi strati di morbidezza, e si lega al mio mondo architettuale nella parte dei tavoli”.

Vincent Van Duysen

Erica Erica '19

Antonio Citterio

The lightness and the design of the elements make them ideal for both public and residential settings, featuring seat and back cushions for ergonomic comfort together with strength for outdoor use. A real invitation to relax.

La leggerezza e il disegno degli elementi ne suggeriscono l'utilizzo sia in spazi pubblici che residenziali, rispettando criteri di ergonomia e adattabilità ambientale. Un vero e proprio invito al relax.

Ray Outdoor Fabric-Natural

Antonio Citterio

Both featured by structures covered with interlaced materials: Ray Outdoor is created using a ribbon pattern composed by polypropylene fibres resistant to UV rays and weathering; while Ray Outdoor Natural features an interlacing rope pattern reminiscent of Manila hemp, in perfect harmony with nature.

Entrambi caratterizzati dalla struttura rivestita ad intreccio, Ray Outdoor Fabric si distingue per l'intreccio a nastro realizzato in fibra di polipropilene resistente ai raggi UV ed agli agenti atmosferici, Ray Outdoor Natural per l'intreccio a "corda" che si rifà all'abaca naturale, in perfetta armonia con la natura.

Canasta Canasta '13

Patricia Urquiola

For Canasta, the play between classic and contemporary is without any nostalgia: if the Viennese cane inspiration is retro, the polyethylene texture speaks today's language. The Canasta' 13 series maintain the iconic design and the typologies of the entire Canasta series, but with a new look designed to blend in with the external environment even more.

Per Canasta, il gioco tra il classico ed il contemporaneo è senza alcuna nostalgia: se l'ispirazione alla paglia di Vienna è retro, la texture in polietilene parla il linguaggio di oggi. La serie Canasta '13 mantiene il design iconico e le tipologie di tutta la serie Canasta e cambia "veste" per fondersi maggiormente con l'ambiente esterno.

Crinoline

Patricia Urquiola

Can you picture the dresses that women wore in the 1800s? Full, bell-shaped skirts held by crinolines (rigid underskirt garments) were spectacular “micro-architectures”.

Avete presente le gonne delle dame ottocentesche? Gonfie, a campana, sostenute dalle crinoline (sottogonne rigide). Erano scenografiche micro-architetture.

Allure O' Outdoor
Monica Armani • 2023
Inspiration • 45

The Allure O' table, a heartfelt tribute to glamour interpreted in contemporary style, is presented in an outdoor version that keeps the graceful force of its design, clearly visible in the shape of the top and the balance between straight lines and sinuous curves. It is proposed with square and rectangular tops and in two heights. In addition to the usual top height of 72 cm top, you can choose a 66 cm version, to accompany the Flair O' chairs but also the sofas and chairs in the other families of the B&B Italia Outdoor collection.

Il tavolo Allure O', sentito omaggio al glamour interpretato in chiave contemporanea, si presenta in una versione outdoor che mantiene intatta la forza aggraziata del suo design, chiaramente visibile nella forma del piano e nell'equilibrio tra linee rette e curve sinuose. E' proposto con piani quadrati e rettangolari e in due altezze. Oltre alla consueta altezza del piano di 72 cm, si potrà scegliere una versione da 66 cm, da accompagnare alle sedie Flair O' ma anche a divanetti e sedie di altre famiglie della collezione B&B Italia Outdoor.

Allure O' Outdoor

Monica Armani • 2023

Inspiration • 45

The tops are created in lightened grey concrete, and a surprising glossy glazed stoneware, a nostalgic material, used in the past for kitchen cooking surfaces. It is a material that is decidedly resistant to corrosive agents and the stains that can be caused by food, drinks and the typical situations of outdoor life. Produced with an artisanal technique, after a slow, single firing process at a temperature of 250 °C, the material is manually glazed by airbrush, a technique that allows for a unique depth and variety of colour.

The base-frame is made of moulded grey cement, a choice that gives Allure O' Outdoor extreme solidity and an appearance that easily adapts to any outdoor furnishing situation.

I piani sono previsti in cemento grigio alleggerito, e un sorprendente gres smaltato, materiale della memoria, utilizzato in passato per le superfici di cottura nelle cucine. Si tratta di un materiale decisamente resistente agli agenti corrosivi e alle macchie che possono derivare dal cibo, dalle bevande e dalle situazioni tipiche della vita all'aria aperta. Prodotto con tecnica artigianale, dopo un lento processo di monocottura alla temperatura di 250 °C, viene smaltato manualmente ad aerografo, tecnica che permette di ottenere una singolare profondità e varietà del colore.

Il basamento è realizzato in cemento grigio colato a stampo, una scelta che conferisce ad Allure O' Outdoor estrema solidità e un aspetto che si adatta facilmente a qualsiasi situazione di arredo outdoor.

Awa Outdoor
Naoto Fukasawa • 2009
Inspiration • 312

A sculptural project by Naoto Fukasawa: the small table Awa Outdoor is a versatile object that can be used as a base for a lot of things. Base and top are integrated: aesthetically, it's the epitome of essential elegance. Awa is made with a technologically advanced material, a special blend of white Cristalplant Outdoor® that ensures it can be used both indoors and outdoors. Its particular surface is very soft, similar to natural stone.

Scultoreo progetto di Naoto Fukasawa: il tavolino Awa Outdoor è un oggetto versatile, di servizio, indispensabile per l'appoggio. Base e piano sono un unicuum: l'estetica si divide tra l'eleganza e l'essenzialità. Il materiale è tecnologicamente avanzato: lo compone una speciale mescola in Cristalplant Outdoor® bianco che assicura l'utilizzo in indoor così come in outdoor. La particolare superficie del materiale ha un effetto soft touch, simile alla pietra naturale.

Ayana

Naoto Fukasawa • 2020

Inspiration • 105

Minimalist and innovative, the Ayana collection becomes a new chapter in the story that connects B&B Italia to Naoto Fukasawa. It sees wood as the protagonist, interpreted in an unusual way, with a pleasant oriental touch. If the depths and heights are a clear reference to the south-east Asian tradition, the backrest recalls a Swedish wall bar, an exercise equipment turned into a load-bearing element. Thanks to this solution, the elements of the Ayana collection can be enjoyed and appreciated at 360 degrees, discovering on each side a new elegant interplay of intersections and proportions. Two and three seat sofas and the armchair have armrests at different heights. The armchair armrest is higher to guarantee a more ergonomic seat. The sofa armrest, which is lower, can be combined with a cushion that is easy to be fastened and removed, and helps to lie down more comfortably if necessary. The upholstery of this collection stands out for the individual cushions, all covered with waterproof fabrics.

Minimalista e innovativa, la collezione Ayana diventa un nuovo capitolo nella storia che lega B&B Italia a Naoto Fukasawa e che vede come protagonista il legno, interpretato in maniera insolita, con un piacevole tocco orientale. Se le profondità e le altezze sono un chiaro rimando alla tradizione del sudest asiatico, lo schienale richiama una spalliera svedese, che da strumento per l'attività fisica si trasforma in elemento portante. Grazie a questa soluzione, gli elementi della collezione Ayana possono essere goduti e apprezzati a 360 gradi, scoprendo su ogni lato un nuovo elegante gioco di incroci e proporzioni. I divani, proposti nelle versioni a due e tre posti, e la poltrona si presentano con braccioli di diversa altezza. Il bracciolo della poltrona è più alto per garantire una seduta più ergonomica. Al bracciolo del divano, più basso, è possibile abbinare un cuscinetto facile da agganciare e rimuovere, che all'occorrenza consente di sdraiarsi agevolmente. Le imbottiture si contraddistinguono per i cuscini singoli, rivestiti da tessuti waterproof.

Ayana's warm minimalism is completed with a chair, a dining table and a low table. The dining chair recalls the stylistic features of the other seats, for a perfect family feeling, with the structure in natural teak wood and two generously padded cushions covered in fabric. The table stands out for its oval top in serpentine, a typical stone of the Alps. The supporting structure in natural teak appears light but is extremely robust, able to resist weather and support the heavy top. Even the coffee table has a round section structure in natural teak, with a top in serpentine. Its broad dimensions allow to create a pleasant convivial atmosphere in outdoor settings. Ayana is a project with a green soul. The teak used to make the structures is FSC® certified (Forest Stewardship Council) and all the materials that make up the various elements of the series, at the end of the product's life cycle, can be separated and disposed of with respect for the environment.

Il minimalismo caldo di Ayana si completa con una sedia, un tavolo da pranzo e un tavolo basso. La sedia richiama gli stilemi delle altre sedute, per un perfetto family feeling, con la struttura in teak naturale a sezione tonda e una generosa imbottitura a due cuscini rivestiti in tessuto. Il tavolo si contraddistingue per l'ovale del piano in serpentino, pietra tipica delle Alpi. La struttura portante in teak naturale appare leggera ma si rivela estremamente robusta, capace di resistere alle intemperie e sostenere l'importante superficie. Anche il tavolo basso presenta la struttura a sezione tonda in teak naturale, sormontata da un piano in serpentino. Le ampie dimensioni sono pensate per creare un ambiente conviviale e piacevole anche all'aperto. Ayana è un progetto dall'animo green. Il teak utilizzato per realizzare le strutture è certificato FSC® (Forest Stewardship Council) e tutti i materiali che compongono i vari elementi della serie, al termine del ciclo di vita del prodotto, potranno essere separati e smaltiti nel rispetto dell'ambiente.

Ayana

Naoto Fukasawa • 2020

Inspiration • 105

The entire collection is based on structures with a round section, a far cry from the traditional square section that defines many outdoor furnishings. As if they were made of sticks simply set next to one another, the Ayana structures are made of natural teak. The wood is unpainted to allow it to age and evolve in the most genuine way, respecting the intrinsic characteristics of this material. An ancestral choice that recalls ancient tools and primitive constructions, which however conceals ingenious technical solutions. The structures are also distinguished by the presence of invisible joints that do not include metal elements such as screws, but only wooden pins. An aesthetic choice that is also a functional one: in fact, this allows the wood to continue its transformations as weather conditions change, without however causing irreversible cracking or deformation. In Fukasawa's vision, round sections and untreated wood create a more natural look that is completed with a seat style that is halfway between the Far East and contemporary Scandinavian.

L'intera collezione si basa su strutture a sezione tonda, lontane dalla tradizionale sezione quadrata che definisce larga parte dell'arredo outdoor. Come fossero fatte di bastoni semplicemente accostati, appoggiati a quota zero, le strutture di Ayana sono realizzate in teak naturale, non verniciato in modo da garantire al legno di maturare ed evolvere nella maniera più genuina, rispettando le caratteristiche intrinseche di questo materiale. Una scelta ancestrale, che ricorda strumenti antichi o magari costruzioni primitive, che tuttavia nasconde soluzioni tecniche di assoluto ingegno. Le strutture sono contraddistinte anche dalla presenza di incastri invisibili che non prevedono l'aggiunta di elementi metallici quali viti o giunti, ma soltanto spine di legno. Una scelta estetica, ma anche funzionale: infatti in questo modo si permette al legno di seguire naturalmente le sue trasformazioni al variare delle condizioni atmosferiche, senza però causare fessurazioni o deformazioni irreversibili. Nella visione di Fukasawa, sezione tonda e legno non trattato concorrono a creare un aspetto più naturale, che si completa con uno stile di seduta che si situa a metà strada tra Estremo Oriente e contemporaneo scandinavo.

TEAK WOOD

Teak wood comes from various tectona plants that are common in tropical countries. As a result of its strong resistance to humidity and of its internal content of oily substances, it is considered a very precious wood type especially for outdoor environments. It must be said that wood is a living material that reacts to external agents; hence, it is normal and natural to note a variation in the shade of colour as time goes by. The change in colour over time is not a defect. On the contrary, it is a natural characteristic of this wood that lives and reacts to the outside environment with an aging/oxidation process which does not alter the structural integrity of the product. The images on the right show an example of how the colour of the wood surface can vary.

Il legno di Teak proviene da diverse piante di tectona diffuse nei paesi tropicali. Ha eccellenti caratteristiche di resistenza agli agenti atmosferici, alla salsedine, all'umidità e alle escursioni termiche grazie alla presenza al suo interno di una resina oleosa. Il legno è comunque un materiale vivo che reagisce agli agenti esterni; una esposizione continua ad essi muta progressivamente lo strato superficiale fino alla formazione di una patina superficiale grigio/argento. Tale fenomeno non è quindi da considerarsi un difetto ma la testimonianza della naturalità del legno che vive e reagisce all'ambiente esterno con un processo di maturazione/ossidazione che non altera in alcun modo l'integrità strutturale del prodotto. L'immagine a lato riporta un esempio di variazione della colorazione della superficie del legno.

SERPENTINE STONE

The Serpentine of Valmalenco is an ornamental stone used for both construction and furnishing. It is quarried by natural splitting or in blocks and has physical and aesthetic properties that render it both highly prized and extremely durable. Thanks to its physical and aesthetic properties, it is perfect for interior and exterior cladding of buildings, lining stoves and furnishings. With its fine grain and marked foliation, natural split serpentine is processed mainly into sheets of varying thicknesses.

Il serpentino della Valmalenco è una pietra ornamentale e da costruzione utilizzata in edilizia e nell'arredamento. E' coltivato sia nella varietà a spacco sia in quella massiccia, e possiede caratteristiche fisiche ed estetiche che lo rendono estremamente durevole e pregiato. Grazie alle sue proprietà fisiche e qualità estetiche, trova naturale impiego nella realizzazione di rivestimenti di stufe, esterni e interni di edifici e complementi d'arredo. Il serpentino a spacco, in virtù della sua grana molto fine e della marcata foliazione, viene lavorato prevalentemente in lastre di vario spessore, leggere e impermeabili.

Bay
Nipa Doshi and Jonathan Levien • 2018
Inspiration • 231

Bay is a collection of sculptural and monolithic yet visually light outdoor seats comprising of a sofa in two sizes, an armchair and a high-backed armchair. Their enveloping volumes are marked by a double polypropylene fibre interlacing that creates “air pockets”, granting transparency and lightness to the furniture. The frame accommodates padded solid seats and soft cushions for added comfort. The colours combinations are extremely refined, with tortora and anthracite for the interlacing, paired with elegant block colour and patterned fabrics for the seats and cushions.

Bay è una collezione di sedute da esterno composta da divano in due dimensioni, poltrona e poltrona con schienale alto, che si distinguono per l’aspetto scultoreo monolitico, al contempo visivamente leggero. Avvolgenti volumi intrecciati realizzati in fibra di polipropilene, con un doppio intreccio che crea “tasche d’aria” che donano trasparenza e leggerezza, sono combinati con sedute imbottite dalle sembianze di rocce e si completano con morbidi cuscini che offrono grande comfort. Ricercata la proposta cromatica che prevede due colori per l'intreccio, tortora e antracite, da abbinare alle raffinate tonalità di tessuti tinta unita e fantasia previsti per i rivestimenti di sedute e cuscini.

Bay
Nipa Doshi and Jonathan Levien • 2018
Inspiration • 231

In 2019 the Bay collection has seen the addition of a sofa, a small armchair and an ottoman that reinforce the iconic image of the range by mirroring the generous and solid shapes and the sense of transparency generated by the interplay of anthracite-and dove-coloured polypropylene interlacing. The new sofa has a particularly welcoming and deep seat, complemented by soft seat-back cushions and new roller cushions that can be used as headrests. The small armchair is a scaled-down version of the existing armchair providing a perfect addition to the collection, or an alternative for smaller spaces. The new ottoman mirrors the chair design and coordinates with the whole range.

La collezione Bay si arricchisce nel 2019 di un divano, una poltroncina e un pouf che confermano l'iconicità della famiglia, riprendendone i volumi ampi e monolitici e le trasparenze create dai sofisticati giochi di intrecci in polipropilene antracite e tortora. Il nuovo divano presenta una seduta particolarmente accogliente e profonda, completata da morbidi cuscini schienale e dai nuovi cuscini rullo da utilizzare come poggiatesta. La poltroncina riproduce in scala ridotta le poltrone già in collezione, diventando così una perfetta aggiunta oppure un'alternativa per spazi più ridotti. Nuovo anche il pouf che riprende il disegno delle sedute e si coordina con tutti gli elementi della serie.

Borea

Piero Lissoni • 2021-2022

Inspiration • 81

Borea is a complete and eclectic collection of outdoor seats and tables designed by Piero Lissoni. The numerous pieces in the collection have in common tubular metal structures with a fluid and seamless design, without joints and interruptions, captivating and even emerging in the detail that extends to the base. The metal bending processes take advantage of techniques typically used in the aeronautical sector and transport them into the world of outdoor furniture bringing life to a collection with an unmistakable style.

Borea è una collezione completa ed eclettica di sedute e tavoli da esterni disegnata da Piero Lissoni. I numerosi pezzi che la compongono sono accomunati da strutture in metallo tubolare dal disegno fluido e continuo, senza giunti e interruzioni, accattivante e addirittura sorprendente nella parte terminale che appoggia a terra. Le lavorazioni di piegatura e curvatura del metallo riprendono tecniche tipicamente utilizzate nel settore aeronautico e le trasportano nel mondo dell'arredo outdoor dando vita ad una collezione dalla cifra stilistica inconfondibile.

The collection includes two-and three-seater sofas, an oversized armchair, a low small armchair and a dining chair, all with stackable aluminum structures painted in dove grey, sage, clay and anthracite colours. Comfort is ensured by generous cushions, which are not only soft and relaxing but were also developed to be sustainable. Paddings are in fact made with polyester fiber filling coming from recycled PET plastic bottles enveloping a different densities polyurethane core.

Le sedute comprendono divani a due e tre posti, una poltrona dalle proporzioni importanti, una poltroncina bassa e una poltroncina pranzo, tutte con strutture impilabili in alluminio verniciato nei colori tortora, salvia, argilla e antracite. Il comfort è assicurato da cuscinate super generose e accoglienti, all'insegna della morbidezza, del relax e della sostenibilità. Le imbottiture sono infatti realizzate in fibra 100% poliestere proveniente dal riciclo di bottiglie in plastica PET che avvolge un inserto in poliuretano a densità differenziata.

A delicate balance of oval shapes defines the essence of the Borea sunbed lounge, a seat with great character. Available in two versions: chaise lounge and sofa, both featuring a large section of reclinable back. The chaise lounge has an elongated, welcoming form just right for one or two people. By lowering the back, the chaise longue becomes an island with multiple uses. The same is true of the sofa, with construction and structural features that are perfect for the pool, the lawn, or even the terrace. The frame is made of curved aluminium tubes and is completed with an upholstered mattress that guarantees great comfort.

Un delicato equilibrio di forme ovali definisce l'essenza di Borea lounge sunbed, una seduta di grande carattere proposta in due versioni: chaise longue e divano, entrambe caratterizzate da uno schienale regolabile in tre posizioni. La chaise longue si definisce con una forma allungata e accogliente, adatta a ospitare una o due persone. Abbassando lo schienale la chaise longue diventa un'isola dai molteplici usi. Lo stesso accade con il divano, che per le sue caratteristiche costruttive e strutturali risulta perfetto per la piscina, su un prato oppure in terrazza. La struttura è realizzata in alluminio tubolare curvato ed è completata da un materassino imbottito che offre grande comodità.

Stackable products
Prodotti impilabili

The starting point of the seating collection are lightweight tubular aluminium structures that combine a fluid, continuous design with functionality and sustainability. The starting point of the seating collection are lightweight tubular aluminium structures that combine a fluid, continuous design with functionality and sustainability.

Aluminium's lightness combined with a well thought-out design allows the structures to be easily stacked so that they can be stored during winter in the smallest space. It is possible to stack up to three armchairs, three two-seater sofas, three three-seater sofas, six chairs and six small armchairs.

Punto di partenza della collezione di sedute sono strutture leggere in tubolare d'alluminio che combinano un disegno fluido e continuo a contenuti di funzionalità e sostenibilità. L'alluminio rappresenta infatti una scelta sostenibile sia perché estremamente resistente e durevole sia perché interamente e facilmente riciclabile, quindi riutilizzabile all'infinito per dare vita

ogni volta a nuovi prodotti. La leggerezza dell'alluminio unita al design studiato nei minimi dettagli consente inoltre di impilare le strutture agevolmente così da poterle riporre durante la stagione invernale occupando il minor spazio possibile. È possibile impilare fino a 3 poltrone, 3 divani a due posti, 3 divani a tre posti, 6 sedie e 6 poltroncine.

Borea

Piero Lissoni • 2021-2022

Inspiration • 81

The dining tables reflect the design and shades of the seating structures, but use steel instead of aluminum to support distinctive tops in teak and glazed lava stone. The lava stone comes from the slopes of Mount Etna (Sicily, Italy) and is available in large rectangular tiles in three bright colors - sage, clay and ocean blue - which harmonize perfectly with the whole collection. The glazed surface is made with a special material obtained by recycling the glass of discarded TV and PC monitors, applied directly to the stone through an exclusive manufacturing process. The tables are available in two sizes to accommodate six and eight people respectively: 244x105 cm and 285x105 cm.

I tavoli da pranzo riprendono il disegno e le tonalità delle strutture delle sedute, ma utilizzano l'acciaio al posto dell'alluminio per sostenere piani importanti in teak e in pietra lavica proveniente dalle pendici dell'Etna. Quest'ultima è interpretata con grosse piastrelle rettangolari smaltate in tre colori brillanti - salvia, argilla e blu oceano - che si armonizzano perfettamente con tutta la collezione. La superficie smaltata è realizzata con un materiale speciale ottenuto dal recupero del vetro di monitor di tv e pc dismessi, applicato direttamente alla pietra tramite un esclusivo processo di lavorazione. Due le dimensioni per ospitare rispettivamente sei e otto persone: cm 244x105 e cm 285x105.

The low tables designed to complement the sofas and chairs have the same tops composed of glazed lava stone tiles. They are available in two sizes - 121x105 cm and 162x105 cm - with structures in steel rod painted in dove grey, sage, clay and anthracite. The collection is enriched and completed by a series of round tables that offer multiple support solutions. The Borea coffee tables, in three sizes and heights, have thin structures in dove-gray, sage, clay and anthracite painted steel rod and are available with tops in glazed lava stone in sage, clay and ocean blue colors.

Il motivo del piano con piastrelle in pietra lavica smaltata è ripreso da tavoli bassi pensati come complemento per le sedute. Sono proposti in due dimensioni - cm 121x105 e cm 162x105 - con strutture in tondino di acciaio verniciato tortora, salvia, argilla e antracite. Ad arricchire e completare la collezione una serie di tavolini tondi che offrono molteplici soluzioni di appoggio. I tavolini Borea, in tre misure e altezze, hanno strutture sottili in tondino di acciaio verniciato tortora, salvia, argilla e antracite e prevedono piani in pietra lavica smaltata salvia, argilla e blu oceano.

Butterfly

Patricia Urquiola • 2015

Inspiration • 245

Butterfly gets its name from the “butterfly” shape created by the outer corner that joins the armrest and the backrest. It is a modular seating system that responds effectively to the needs of modularity and comfort, suitable for free and informal usage. Its modular structure is shaped around an ottoman, which is the base piece, and which, when integrated with the backrest and/or the armrest, becomes a central or terminal element, either left or right. The combination of these elements, using a simple joint system, makes it possible to freely set up versatile configurations, from in-line sofas to corner solutions, from front facing to lounge layouts.

Butterfly prende il suo nome dalla forma a “farfalla” che disegna l'angolo esterno di unione tra bracciolo e schienale. È un sistema di sedute componibili che risponde in modo efficace ad esigenze di modularità e comfort, proponendo un utilizzo libero e informale. La struttura modulare si sviluppa intorno ad un pouf, il pezzo base, che integrato con schienale e/o bracciolo diventa poi un elemento centrale o terminale, destro o sinistro. Dall'accostamento tra questi elementi, tramite un semplice sistema di giunzione, nascono configurazioni libere e versatili, dai divani lineari a soluzioni angolari, da un accostamento vis-à-vis a soluzioni lounge.

The Butterfly complements have an outline that perfectly follows the lines of the sofa, harmoniously flanking the seat at the top. The family consists of two low tables and two small table featuring a large weave pattern, made of tortora coloured twisted polyethylene fibres that wraps around the grey painted aluminium frame. The surface of the complements is available in white Carrara marble “venatino statuarietto”.

I complementi Butterfly presentano una silhouette che riprende perfettamente l'andamento della struttura del divano, affiancandosi poi armoniosamente alla seduta nella parte alta. La famiglia si compone di due tavoli bassi e due tavolini caratterizzati da un intreccio grafico a dimensioni macro, realizzato con fibre di polietilene ritorte di color tortora, che avvolge la struttura in alluminio con finitura verniciato grigio. Il piano dei complementi è proposto in marmo bianco di Carrara “venatino statuarietto”.

Canasta

Patricia Urquiola • 2007

Inspiration • 259

The inspiration? A wicker basket in the Far East: Patricia Urquiola started working on the weave of Canasta (basket in Spanish) while out in the Far East. To find the perfect weave, the designer reinterpreted the traditional design of the octagonal holes in Viennese cane, mixed two patterns to transform the product into the macro-pattern of Canasta and create a series of outdoor sofas that look classic but have contemporary adaptability. In fact, the play between classic and contemporary is not a new idea: the Viennese cane inspiration is retro, and the polyethylene texture speaks today's language.

L'ispirazione? Una cesta in vimini vista in Estremo Oriente: Patricia Urquiola inizia da qui il lavoro sull'intreccio di Canasta (cesta, in spagnolo). Per trovare la trama perfetta la designer reinterpreta anche il tipico disegno a fori ottagonali della paglia di Vienna, mixa i due segni e li trasforma nel macro pattern geometrico di Canasta creando una serie di divani da giardino dalla memoria classica ma con plasticità contemporanea. Infatti il gioco tra il classico e il contemporaneo è senza alcuna nostalgia: se l'ispirazione alla paglia di Vienna è retro, la texture in polietilene parla il linguaggio di oggi.

A family of seating featuring a maxi-interlacing of white polyethylene fibre ribbon. There are many typologies: circular and linear sofas, armchairs and service elements. All these very comfortable seating have frames in aluminium with weather resistant polyester powder painting with interlacing in polyethylene fibre.

Famiglia di sedute caratterizzata dal macro-intreccio di nastri in fibra di polietilene bianca. Molteplici le tipologie: divani circolari e lineari, poltrone ed elementi di servizio. Tutte le sedute di grande comfort hanno la struttura in alluminio verniciato a polvere poliestere resistente agli agenti atmosferici e intreccio in fibra di polietilene.

Charles Outdoor
Antonio Citterio • 2010
Inspiration • 219

The Charles sofa system, a long-time bestseller for the company, is being introduced in an outdoor version: Charles Outdoor. Characteristics that made it a classic of pure contemporary taste have been left unchanged. The system will have the same slim frame, flexibility and signature design of the inverted “L” shape aluminium foot.

Il sistema di divani Charles, bestseller e longseller dell'azienda, viene proposto nella versione outdoor: Charles Outdoor. Rimangono inalterate le caratteristiche che lo hanno reso un classico dal gusto decisamente contemporaneo: la struttura sottile, la flessibilità del sistema e il design essenziale del piedino in alluminio a forma di “L” rovesciata.

Colosseo Outdoor

Naoto Fukasawa • 2020

Inspiration • 308

In 2020 Colosseo debuts outdoor in the new porcelain stoneware version in sage and clay colors. A furnishing element with various functions depending on the occasion and need (coffee table and pouf). Colosseo takes its name from the designer's inspiration. Naoto Fukasawa has in fact arrived at the desired shape thinking of a solid in the shape of an upside-down truncated cone, creating an assonance with the structure of the famous Roman arena.

Nel 2020 Colosseo debutta nella nuova versione Outdoor, in gres porcellanato nei colori salvia e argilla. Elemento di arredo con varie funzioni a seconda delle occasioni e delle necessità (pouf e tavolino), Colosseo prende il nome dall'ispirazione del designer. Naoto Fukasawa è arrivato alla forma desiderata pensando ad un solido a forma di tronco di cono rovesciato alleggerito nella struttura da incavi a forma di arco, creando così una assonanza con la famosa arena romana.

Cordoba Outdoor

Foster+Partners, Industrial Design Studio • 2023

Inspiration • 37

The Cordoba armchair doubles its range with the introduction of its outdoor version. The shape remains the same as the indoor one, combining precise design, ergonomics, comfort and environmental responsibility, but the materials are all new. In the new look, the frame in natural teak wood is combined with a polypropylene reinforced canvas cover, particularly suitable for the outdoor dimension. The touch is pleasantly rough and reminiscent of a natural fabric in every way.

La poltrona Cordoba raddoppia l'offerta con l'introduzione della sua versione outdoor. La forma rimane la medesima di quella indoor, unendo design preciso, ergonomia, comfort e responsabilità ambientale, ma i materiali sono tutti nuovi. Nella nuova veste la struttura in legno di teak naturale si sposa con un rivestimento in tela armata di polipropilene, particolarmente idonea alla dimensione outdoor. Il tocco è piacevolmente ruvido e in tutto e per tutto analogo al tessuto naturale.

To emphasize the harmonic and relaxed image of the armchair, the covers are offered in colors inspired by nature: green, blue, brick and dove grey. To allow convenient maintenance of the structure, the coverings can be easily removed when needed. A choice that also represents the desire to move in the direction of an increasingly responsible design. All the components of Cordoba Outdoor, at the end of the life cycle of the product, can be in fact separated and disposed of following the path most suitable for each material.

Per sottolineare l'immagine armonica e rilassata della seduta, i rivestimenti sono proposti in colori ispirati alla natura: verde, blu, mattone e tortora. Per consentire una comoda manutenzione della struttura, i rivestimenti possono essere rimossi agevolmente quando necessario. Scelta che rappresenta anche la volontà di muoversi nella direzione di un design sempre più responsabile. Tutti i componenti di Cordoba Outdoor, al termine del ciclo di vita del prodotto, potranno infatti essere separati e smaltiti seguendo il percorso più adatto ad ogni materiale.

This collection includes harmonious tables which can be used in pairs or groups due to their compact size. They adapt easily to different enviroments both as contract furnishing schemes and residential balconies or terrace. These tables are entirely painted (sage, clay or anthracite) or with tops in porcelain stoneware (white or anthracite).

La collezione include una serie di tavoli dalle linee armoniose che possono essere utilizzati in coppia o in piccoli gruppi. La versatilità che li contraddistingue ne permette l'adattabilità a diversi contesti. Da progetti contract a balconi e terrazze ad uso residenziale. I tavoli possono essere interamente verniciati (salvia, argilla o antracite) oppure con il piano in gres porcellanato (bianco o antracite).

Crinoline

Patricia Urquiola • 2008

Inspiration • 275

Can you picture the dresses that women wore in the 1800s? Full, bell-shaped skirts held by crinolines (rigid underskirt garments) were spectacular “micro-architectures” commonly seen in living rooms everywhere. All of the chairs in the Crinoline collection are designed to reflect this elegant look: the wide curve of the base is repeated in the seat and the curve of the backrest.

Avete presente le gonne delle dame ottocentesche? Gonfie, a campana, sostenute dalle crinoline (sottogonne rigide) erano scenografiche micro-architetture da salotto. “Più che romantica. Più che sensuale. L'ispirazione è esotica ed erotica”, dice Patricia Urquiola. Le poltrone e sedie Crinoline sono disegnate per rendere l'idea di questi abiti eleganti: l'ampia conca della base è ripresa nella seduta e nella curvatura dello schienale.

The Crinoline collection that in the years have become one of the most recognizable product of the B&B Italia Outdoor collection gets a new look and defines the new trendy color in the outdoor living: clay. With this new tone and the new outdoor proof polyethylene material for the interlacing will be easier to match it with all the other items to set amazing outdoor displays and scenarios.

La collezione Crinoline negli anni è diventata uno dei prodotti più riconoscibili della collezione B&B Italia Outdoor. Oggi si propone con un nuovo look che definisce in modo sicuro il colore attualmente più trendy nel mondo outdoor: il rosso argilla. Grazie alla nuova tonalità e al materiale polietilene outdoor-proof, sarà ancora più facile combinare Crinoline con tutti gli altri prodotti per realizzare layout e scenari outdoor d'effetto.

Sofas, armchair, small armchair and chair, including a stackable version, offer a technological blend of extruded and die-cast aluminium elements. Their lightness and design makes them ideal for both public and residential settings, featuring seat and back cushions for ergonomic comfort together with strength for outdoor use. The painted frames are available in two finish combinations: tortora painted aluminium frame with tortora colour polypropylene fibre interlacing or anthracite painted aluminium frame with anthracite colour polypropylene fibre interlacing.

Divani, poltrona, poltroncina e sedia, anche in versione impilabile, sono studiati con un mix tecnologico di estrusi e pressofusioni di alluminio. La loro leggerezza e il loro disegno ne suggeriscono l'utilizzo sia in spazi pubblici che residenziali, rispettando criteri di ergonomia e adattabilità ambientale. I cuscini sedile e schienale garantiscono un confortevole relax. Due le finiture delle strutture verniciate, abbinate ad intrecci di nastri in tessuto sintetico con un'anima interna ad alta tenacità studiata per l'utilizzo outdoor: struttura in alluminio verniciato tortora con intreccio in fibra di polipropilene tortora o struttura in alluminio verniciato antracite con intreccio in fibra di polipropilene antracite.

● H 40 cm

The well-established identity of the Erica collection offers new dimensions for the chair, in line with the most current styles and trends. In addition to the version with traditional seat height, the chair is offered with a seat 5 cm lower. Perfect for private spaces, but also for hotels, it is suitable for relaxation and conviviality where it is designed to accompany low tables.

L'identità consolidata della collezione Erica propone nuove dimensioni per la sedia, in linea con gli stili e le tendenze più attuali. Oltre alla versione con altezza seduta tradizionale, la sedia è proposta con una seduta più bassa di 5 cm. Perfetta per gli spazi privati, ma anche per gli alberghi, si adatta al relax e alla convivialità laddove si preveda di abbinarla a tavoli bassi.

Flair O' Outdoor
Monica Armani • 2023
Inspiration • 55

The Flair O' chair is enriched with a surprising outdoor version. Geometrically similar to the indoor one, it is characterized by a sturdy, lightweight aluminum frame completely covered with an interlacing of polypropylene ribbons, following a meticulous hand-crafted process. In particular, the backrest is woven on a special circular loom (tombolo) in line with an ancient technique typical of the area where the B&B Italia headquarter is located. Two padded cushions complete the chair, defining its shape and providing even more comfort.

La sedia Flair O' si arricchisce di una sorprendente versione outdoor. Geometricamente affine a quella indoor, è caratterizzata da un telaio leggero in alluminio completamente ricoperto da un intreccio di nastri in polipropilene seguendo un processo artigianale meticoloso. In particolare, l'intreccio dello schienale è realizzato utilizzando un telaio circolare (tombolo) secondo un'antica tecnica tipica della zona in cui si trova la sede di B&B Italia. Due cuscini imbottiti completano la sedia, definendo la forma e regalando ancora più comfort.

Flair O’ Outdoor

Monica Armani • 2023

Inspiration • 55

Flair O’ Outdoor is proposed in two heights to match with the two heights of the Allure O’ Outdoor tables. In addition to the classic seating height of 47 cm, a new less imposing height of 42 cm has been introduced, less stiff and more devoted to relaxation, Both versions can be covered with interlacing in night blue, clay and dove grey colors, to be matched in harmony or in contrast to the Allure O ’Outdoor tables.

Flair O’ Outdoor è proposta in due altezze da abbinare alle due altezze tavoli Allure O’ Outdoor. Oltre alla classica altezza di seduta di 47 cm, arriva una nuova altezza di 42 cm, meno impettita e più votata al relax. Entrambe le versioni possono essere rivestite con intreccio nei colori blu notte, argilla e tortora, da abbinare in sintonia o in contrasto ai tavoli Allure O' Outdoor.

Collection of large rectangular and round dining tables featuring natural teakwood structural details and designed tops, studied to match central inserts made of Calacatta white porcelain stoneware. The same collection features a chair, always in natural teakwood, with sinuous harmonious lines that are clearly inspired by northern trends. It is characterised by an interlacing in polypropylene fibre that is ideal for outdoor use. Colours are chosen to match natural teakwood with a beige interlacing. Comfort is guaranteed by seat and back cushions.

Collezione di tavoli da pranzo rettangolari e rotondi di grandi dimensioni caratterizzati da dettagli strutturali e disegni dei top realizzati in teak naturale che si abbinano ad inserti centrali realizzati in gres porcellanato bianco Calacatta. Della stessa serie una sedia, sempre in teak naturale, dalle linee sinuose e fluide di chiara ispirazione nordica, caratterizzata da un intreccio di nastri in tessuto sintetico adatto all'utilizzo outdoor. Lo studio cromatico ha previsto l'abbinamento del teak naturale ad un intreccio con nastro di colore beige. Il comfort è garantito da un cuscino sedile e schienale.

Gio
Antonio Citterio • 2016
Inspiration • 209

Gio, designed by Antonio Citterio, is the series with a contemporary classic accent dedicated to living in the open air. A complete range of sofas, end units, chaise longue, sunbeds, armchairs, chairs, tables and complements which have been developed from solid teak structures with a special antique grey finish, which gives the wood a particular lived-in aspect and silver-grey reflective quality.

Al vivere all'aria aperta è dedicata Gio, la serie dall'accento classico contemporaneo disegnata da Antonio Citterio. Una famiglia completa di divani, elementi terminali, chaise longue, lettini, poltrone, sedie, tavoli e complementi che si sviluppano a partire da strutture in massello di teak nella speciale finitura antique grey, che conferisce al legno un particolare aspetto vissuto con riflessi grigio argento.

The various types of sofas, end units and chaise longue can be assembled to form linear, corner and peninsula seating. All elements have a basic structure of wooden slats where backrests and armrests, characterised by and interlacing of tortora ribbons, can be easily inserted.

Da un punto di vista formale le varie tipologie di divani, elementi terminali e chaise longue, tutti accostabili per formare sedute lineari, angolari e a penisola, prevedono una struttura di base a doghe di legno sulla quale si innestano telai schienale e braccioli caratterizzati dall'intreccio di nastri di colore tortora.

Gio

Hospes

B&B Italia CR&S • 2020

Inspiration • 304

Hospes is a dynamic complement that can be used in different ways and fits perfectly with different product families. Made in two sizes and three colors – overseas blue, stone, anthracite - it is based on a robust aluminum frame covered with an interlacing of waterproof ropes. On top, the interlacing hides a padding that provides support and comfort.

Hospes è una seduta estremamente versatile, che trova il suo luogo ideale in ogni ambiente. Un complemento dinamico che può essere utilizzato in modi diversi e si sposa perfettamente con diverse famiglie di prodotto. Realizzato in due dimensioni e tre colori - blu oltremare, sasso e antracite - si basa su un robusto telaio in alluminio rivestito con un intreccio di corde impermeabili. Nella parte superiore l'intreccio nasconde un'imbottitura che dona sostegno e comfort.

Husk Outdoor

Patricia Urquiola • 2011

Inspiration • 294

Comfort and eco-sustainability are the key words for describing Husk Outdoor, designed by Patricia Urquiola. The collection is a tribute to softness, and just looking at these pieces is restful. Husk Outdoor features a hard shell made of Hirek®, a special plastic formed from recycled and recyclable polymers, and a set of soft cushions. The shell is white, while the fixed seat support is available painted in five colours. Cushions come in two versions, with larger sizes on the seat or on the back.

Comfort ed ecosostenibilità le parole chiave delle poltrone Husk Outdoor disegnate da Patricia Urquiola. La collezione è un inno alla morbidezza e invita al riposo già al primo sguardo. Husk Outdoor si caratterizza per una scocca rigida in Hirek®, una speciale plastica formata da polimeri riciclati e riciclabili, ed una serie di cuscini soffici. Bianco è il colore della scocca, mentre il supporto fisso è disponibile verniciato in cinque varianti. Due le versioni della cuscinatura, a scelta di dimensioni più generose sulla seduta o sullo schienale.

The dining chair version completes the Husk Outdoor collection, which meets a variety of size and functional needs. The shell is available only in white; the four legs are in white or black painted metal. The Husk Outdoor collection also includes two small tables: one with three spokes ø 45 cm, available in the same colour variants as the armchair bases; the other with four spokes ø 62,5 cm, already proposed in indoor spaces, joins the Outdoor collection with single colour versions painted white or black.

La tipologia sedie da pranzo completa la proposta Husk Outdoor ed è in grado di rispondere a necessità diverse per dimensione degli spazi e per funzioni. Unico è il colore della scocca, il bianco; le quattro gambe sono in metallo verniciato bianco oppure nero. Della collezione Husk Outdoor fanno parte anche due tavolini: uno a tre razze ø 45 cm, disponibile nelle stesse varianti di colore dei basamenti delle poltrone; l'altro a quattro razze ø 62,5 cm, già proposto per spazi indoor, entra a far parte della collezione Outdoor con le versioni monocolore verniciato bianco o nero.

Hybrid

Antonio Citterio • 2020

Inspiration • 117

After the great success of Ribes, Antonio Citterio developed some design ideas behind it and created Hybrid, an innovative new system of modular seating elements that it is so versatile it can be arranged into an almost infinite number of combinations. The key role of the textile dimension stands out immediately, with upholsteries that cover completely the generous padding, the absolute protagonist. These are typical elements of indoor furnishings, which find with Hybrid an outdoor interpretation. Hence the name of the collection, which is proposed as a real link between the inside and the outside of the house. Hybrid represents in fact the perfect furnishing element for climates and spaces that are defined by a continuous blend of inside and outside environments, with rooms that open to an en-plein-air dimension, and for living spaces integrated into terraces and gardens. The combination of opposites happens not only visually, but also through the sense of touch. Hybrid guarantees in fact the typical comfort of traditional upholstered furniture for interiors, thanks to a new type of mattress seat conceived for outdoor furnishing.

Dopo il grande successo di Ribes, Antonio Citterio ne sviluppa alcuni spunti progettuali e nasce Hybrid, un nuovo sistema di sedute modulare ad alto tasso di innovazione, estremamente versatile e dalla componibilità pressoché infinita. Immediatamente balza all'occhio il ruolo chiave della dimensione tessile, che riveste completamente una generosa imbottitura, assoluta protagonista. Si tratta di elementi tipici dell'indoor, che con Hybrid arrivano con determinazione nell'outdoor. Da qui il nome della collezione, che si propone come vero e proprio anello di congiunzione tra l'interno e l'esterno della casa. Hybrid rappresenta infatti il perfetto elemento d'arredo per climi e spazi che si definiscono per la continuità tra dentro e fuori, ambienti naturalmente aperti a una dimensione en-plein-air, ma anche per spazi living integrati a terrazze o giardini. L'unione degli opposti non avviene soltanto attraverso la vista, bensì anche col tatto. Hybrid garantisce infatti il comfort tipico dei tradizionali imbottiti da interni, grazie a una seduta a materasso, estremamente soffice e accogliente, inedita per l'arredamento da esterni. La cuscinatura è infatti realizzata con materiale per imbottiture a diversa densità, studiato per accogliere

The cushions are actually made with paddings with different densities, carefully designed to pleasantly accommodate the body and support it at the same time, without sinking. The supporting structures are almost invisible, and the seat seems to float a few centimeters above the floor. The solid base is formed by a frame in extruded aluminum painted in he colours sage, clay and anthracite, and is completed by a platform with fiberglass slats. The backrest conceals an aluminum structure, covered with soft polyurethane, which is in turn covered with a padded sheath, completed with a cover in waterproof fabric. The platform is available in eight sizes and two depths, while the armrest and backrest come in two heights. To guarantee further comfort to the deeper seat, the low backrest can be raised with an additional headrest cushion. Additional cushions in various sizes enrich the range, offering countless design and chromatic solutions. The Hybrid collection also includes a series of new outdoor fabrics made with mélange polypropylene yarn in five colour variants that are accented by refined trims. Choices that confirm a decisive and elegant presence for interiors and outdoor spaces.

piacevolmente il corpo e sostenerlo allo stesso tempo, senza sprofondare. Le strutture portanti sono pressoché invisibili e la seduta sembra fluttuare a pochi centimetri dal pavimento. La base è formata da una solida struttura a cornice in estruso di alluminio verniciato nei colori salvia, argilla e antracite, completata da un pianale con doghe in fibra di vetro. Lo schienale nasconde una struttura di alluminio, rivestita di poliuretano morbido, a sua volta rivestito con una guaina imbottita, completata con un rivestimento in tessuto impermeabile. La piattaforma è disponibile in otto misure e due profondità, mentre il bracciolo e lo schienale prevedono due altezze. Per garantire ulteriore comodità alla seduta più profonda, lo schienale basso si può innalzare con un cuscino poggiatesta supplementare. Cuscini aggiuntivi in varie dimensioni arricchiscono la gamma, offrendo innumerevoli soluzioni progettuali e cromatiche. Fanno parte della collezione Hybrid una serie di nuovi tessuti outdoor realizzati con filato di polipropilene mélange in cinque varianti di colore che si sposano con raffinate bordature. Scelte che confermano una presenza decisa ed elegante per interni ed esterni.

All the objects in the Hybrid collection can be dismantled completely. At the end of the life cycle, each individual element can be separated and disposed of following the path best suited to each material. The particular type of structure of Hybrid allows for easily disassemble the various components, so to reduce the space needed to store the products in winter.

Tutti gli oggetti della collezione Hybrid sono completamente disassemblabili. Alla fine del ciclo di vita ogni singolo elemento si potrà separare e smaltire seguendo il percorso più adatto a ogni materiale. La sua particolare struttura consente di disassemblare in maniera molto semplice i vari componenti, riducendo così i volumi nel caso in cui si renda necessario stoccare il prodotto nel periodo invernale.

Link Outdoor
Jakob Wagner • 2009
Inspiration • 284

One-of-a-kind, this piece has been moulded in a continuous, joint-free shape: Link Outdoor stands out for its “soft” material and sensual shape. The material makes you want to reach out and touch its smooth surface. An interestingly shaped dining table dominates the room: Danish designer Jakob Wagner places his pure, contemporary mark on this room, typical of northern design. The table is made in a single piece and there are no hooks or joints. Made from a practical technological material: a special type of Cristalplant Outdoor® ensures that it is suitable for outdoor use. It is a resin, in a fluid form that is moulded into the desired shape, a concept in line with B&B Italia’s production philosophy for upholstered furniture. Cristalplant Outdoor® has a velvety smooth surface, an effective soft-touch surface that feels wonderful.

Pezzo unico, plasmato, continuo, privo di giunti: Link Outdoor si distingue per la sua matericità “morbida”, per la sensualità della sua forma e del suo materiale che suscitano il desiderio di sfiorarne la superficie levigata. Un tavolo da pranzo sinuoso, plastico, protagonista dello spazio: lo firma il designer danese Jakob Wagner che ci mette il suo segno purissimo e contemporaneo, tipico del design nordico. Il tavolo è realizzato in un unico stampo e non prevede l'utilizzo di agganci e giunture. Tecnologico e pratico il materiale che lo compone: una speciale miscela in Cristalplant Outdoor® che assicura l'utilizzo da esterni e da interno. La resina, è in forma fluida e viene lavorata con stampi, concetto in linea con la filosofia di produzione degli imbottiti di B&B Italia. Al tatto Cristalplant Outdoor® si caratterizza per la superficie vellutata con effetto soft-touch di notevole impatto sensoriale.

Mirto Outdoor
Antonio Citterio • 2013
Inspiration • 181

A classic is born. It expresses Antonio Citterio's stable elegance. Different types of seat: chairs, armchairs and a sunbeds are included in the collection. The folding armchair revisits the classic shape of the director's chair, with exclusive details.

Nasce un classico che esprime l'eleganza stabile e riconoscibile del suo autore. Fanno parte della collezione diverse tipologie di seduta: sedie, poltrone, lettini con schienale reclinabile ed una poltroncina pieghevole che rielabora il lessico della classica tipologia da regista, con dettagli accurati.

Mirto Outdoor

All sizes of tables, low tables, small tables and consoles have the same frame and top in painted aluminium, in Calacatta white porcelain stoneware or in enamelled lava stone with anthracite, clay, sage decoration. The quality and attention to detail make Mirto a collection that is made to last.

Tavoli, tavoli bassi, tavolini e console hanno la stessa struttura e top in lamiera verniciata, in gres porcellanato bianco Calacatta o in pietra lavica smaltata con decoro antracite, argilla, o salvia. L'aspetto qualitativo e la cura dei dettagli fanno di Mirto una collezione fatta per durare nel tempo.

Mirto Outdoor

Antonio Citterio • 2013

Inspiration • 181

In 2019 the Mirto collection is also being expanded to include new designs and finishes starting with the folding director's chair now in ecru canvas with natural thick leather armrests and a die-cast aluminium frame in the new colours, clay and sage. There is also a series of very innovative dining, tables, low tables, small tables and console in several sizes that reproduce the collection's minimalist design elements with a fresh take on colours and decorations.

La collezione Mirto si amplia nel 2019 con nuove proposte e finiture, a partire dalla sedia regista pieghevole ora presentata con un rivestimento in tela ecrù con braccioli in cuoio naturale e struttura in pressofusione di alluminio nei nuovi colori argilla e salvia. La grande novità è rappresentata dalla serie di tavoli da pranzo, tavoli bassi, tavolini e console in varie dimensioni che riprendono il disegno essenziale di quelli già parte della collezione, ma introducono i temi del colore e del decoro.

The die-cast aluminium frame comes in three new varnishes - clay, sage and anthracite - and the table tops are made of black lava stone laid out in designs based on traditional Sicilian lace in the three different frame shades. A really innovative technique has been used to manufacture the decorative tiles using a special material obtained by crushing recycled electronic equipment screens which is then applied to the surface of the tiles using an exclusive production process.

Le strutture in pressofusione d'alluminio sono verniciate nei colori argilla, salvia e antracite, mentre i piani sono realizzati con piastrelle di pietra lavica smaltata con decori che riproducono il disegno di un pizzo siciliano tradizionale da abbinare alle tre tonalità delle strutture. La tecnica di stampa delle piastrelle è altamente innovativa e utilizza per il decoro uno speciale materiale ottenuto dalla frantumazione del vetro di monitor e strumenti elettronici dismessi, poi applicato alla superficie delle piastrelle tramite un esclusivo processo di lavorazione.

Nooch

Piero Lissoni • 2023

Inspiration • 5

Nooch is a modular seating system designed with great attention to comfort, compositional felxibility and sustainability. Its key feature is the tubular structure in recycled aluminum, a light and strong material, completely recyclable. A choice inspired by simplicity, which recalls elementary tubular structures and ennobles them with a design that pays attention to every detail. The intersection of the structural elements represents the iconic feature of this collection, with the particular elbow curve achieved by the way the aluminum bends.

Nooch è un sistema di sedute modulare progettato all'insegna del comfort, della flessibilità compositiva e della sostenibilità. La sua caratteristica fondamentale è la struttura tubolare in alluminio riciclato, materiale leggero e robusto, riciclabile all'infinito. Il disegno richiama strutture tubolari elementari nobilitandole attraverso una progettazione attenta a ogni singolo dettaglio e un'elegante finitura semilucida. L'elemento iconico della collezione è riconoscibile nel punto di incrocio degli elementi strutturali, con una particolare curva a gomito ottenuta dalla piegatura dei tubolari.

Nooch is a system that offers the possibility of creating infinite combinations from two base modules: a rectangular one and a square one. That can be equipped with backrests and armrests. The modules can be arranged as free-standing units or attached firmly together by means of special interlocking joints so as to create a variety of configurations. This is also possible due to a series of additional tables that can be inserted between the seats. With tops in serpentine stone or natural teak wood, with irregular slats, they are available in square,

Nooch si propone come un sistema che offre la possibilità di creare infinite combinazioni a partire da due moduli seduta: uno rettangolare e uno quadrato che possono essere dotati di schienali e braccioli. I moduli si possono disporre come unità free-standing oppure agganciare saldamente tra loro tramite speciali giunture così da creare le più svariate configurazioni. Una serie di tavolini a ponte da poter inserire tra gli elementi offre una libertà compositiva ancora maggiore. Con piani in pietra serpentino o in teak naturale a doghe irregolari, sono disponibili

rectangular and trapezoidal shapes. The latter creates gentle curves, becoming the key to varying the linearity of the composition of the elements, creating dynamic solutions. The paddings are designed with sustainability in mind. They use regenerated materials, which are completely separable, and consist of two layers of polyurethane with different densities and firmness. The bottom layer of the seat cushion is made of polyurethane recycled from production waste, while the top layer is made of virgin bio-polyurethane.

in forma quadrata, rettangolare e trapezoidale. Quest'ultima diventa la chiave per variare la linearità della composizione degli elementi dando vita a soluzioni dinamiche. Anche le imbottiture sono progettate all'insegna della sostenibilità. Utilizzano materiali rigenerati, completamente separabili, e si compongono di due strati di poliuretano a differenti densità e portanza. Lo strato inferiore del cuscino di seduta è in poliuretano riciclato da scarti di produzione, mentre lo strato superiore è realizzato in bio-poliuretano vergine.

The collection is enriched by a low table, with a square or rectangular base and a top in serpentine stone or enameled lava stone in clay, sage and ocean blue colors. To emphasize the linearity of the object, the frame is encased by tubular aluminum elements along its entire length, featuring semi-gloss varnish in the same colors as the seats.

A completare la collezione un tavolo basso, a base quadrata o rettangolare, con piano in pietra serpentino o pietra lavica smaltata nei colori argilla, salvia e blu oceano. Per sottolineare la linearità dell'oggetto, la struttura è avvolta in tutta la sua lunghezza da elementi tubolari in alluminio con verniciatura semilucida negli stessi colori delle sedute.

Nooch

Piero Lissoni • 2023

Inspiration • 5

The tubular frame design has no interruption but has been wisely bent on the corners and features a cross design in the back to better host the back cushions. This technical detail will be adding to the seamless metal frame to become one of the distinctive features of the collection, together with the slats inherited from the Borea collection. Nooch stands out for the originality of the colors of its metal structure that go beyond trends and tastes, proposing unusual but inspiring tones such as forest green, avio blue, veronese red and graphite.

La struttura tubolare non ha interruzioni, ma è stata sapientemente piegata neli angoli e presenta un caratteristico motivo a X nella parte dello schienale per contenere la cuscinatura. Questo dettaglio tecnico permette alla struttura in metallo di diventare uno degli elementi distintivi della collezione, insieme alle doghe ereditate dalla collezione Borea. Nooch si distingue per l'originlità dei colori della struttura metallica, proponendo degli insoliti m interessanti toni quali il verde foresta, il blu aviazione, il rosso veronese e il grafite.

Oh, it rains!

Philippe Starck • 2020

Inspiration • 129

The collaboration between B&B Italia and Philippe Starck leads to the birth of a sofa amnd an armchair, both with impressive dimensions and highly scenographic presence, that surprisingly combine an unusual shape and an unexpected function, with a name that really attracts attention. The designer started his research for this project by going back to the origins of outdoor furniture, that of nomads and soldiers: desert tents and field equipment, colonial colors and very light materials, essential shapes with function connected with rapid action. Colours and materials go hand in hand with the initial concept and the collection introduces colonial shades waterproof fabrics. The collection is enhanced by optional cushions that guarantee extra comfort and a dynamic look to this large object, suitable for private settings and also for outdoor areas in hotels and lounge. From a technical standpoint, the backrest is made with a double layer of water-repellent fabric, which makes it 100% waterproof. It is also possible to choose the version with a side table integrated into the structure, available in Mediterranean stone.

Nata dalla collaborazione tra B&B Italia e Philippe Starck, la collezione Oh, it rains! propone un divano e una poltrona studiati per essere utilizzati all'aperto con un design elegante, frutto di una funzionalità iconoclasta, che si adatta alla perfezione a qualsiasi ambiente pubblico o privato che sia. Il designer si è ispirato alle origini del concetto di outdoor e di arredamento per esterni: tende del deserto e attrezzature da campo tipiche dei popoli nomadi e dei soldati, colori coloniali e materiali molto leggeri, forme essenziali dalle funzionalità intuitive e di facile implementazione. I colori e i materiali utilizzati sfoggiano una tavolozza di tonalità che vanno dal beige al marrone caldo. I tessuti sono idrorepellenti e rendono il prodotto completamente impermeabile. La collezione è arricchita da numerosi cuscini opzionali che garantiscono ancora più comfort e dinamicità a questo prodotto adatto sia ad ambienti privati che ad aree outdoor di hotel e lounge. Infine, nella struttura della seduta, è possibile integrare un tavolino in pietra mediterranea.

The large backrest of the product it is not just decorative but it acts like a wall or a partition to create an intimate and private setting nad, when necessary, it folds down on top of the seat so cushions and seat are covered and protected.

L'ampio schienale non è solo decorativo ma crea in maniera del tutto naturale uno spazio intimo e privato che grazie alla impeccabile ergonomia si reclinata facilmente sulla seduta, in caso di pioggia o maltempo, in modo che cuscini e seduta siano coperti e protetti.

Pablo Outdoor
Vincent Van Duysen • 2022
Inspiration • 63

The Pablo collection by Vincent Van Duysen, with its decisive design, rigorous strict lines and innovative proportions, breathing life to a series that includes a sofa, an armchair in two depths, a footrest and two coffee tables.

La collezione Pablo di Vincent Van Duysen, con il suo design deciso, le linee rigorose e le sue proporzioni innovative, dà vita a una serie che comprende un divano, una poltrona in due profondità, un poggiatesta e due tavolini.

The soul of the original project lies in the wood frame, which for Pablo Outdoor is made of teak, the ideal material for outdoors. The geometry of the supporting frame presents a sophisticated balance of straight and curved lines, but this is not just an aesthetic choice. In fact, the frame, with its uninterrupted surface, was designed to ease maintenance of the wood, which is easy to treat as necessary. The continuity of the form and quality of the wood make Pablo Outdoor particularly pleasant to the touch.

L'anima del progetto originario si ritrova nella struttura in legno, che per Pablo Outdoor diventa teak, materiale ideale per l'outdoor. La geometria della struttura portante presenta sofisticati equilibri di linee rette e curve, ma non si tratta soltanto di una scelta estetica. Infatti, la struttura dalla superficie ininterrotta è stata ideata in modo da favorire la manutenzione del legno, agevole da trattare all'occorrenza. La continuità della forma e la qualità del legno rendono Pablo Outdoor particolarmente piacevole al tatto.

Pablo Outdoor
Vincent Van Duysen • 2022
Inspiration • 63

For the sofa, comfort and softness are found in the deep seat and back enhanced with cushions that can be arranged freely. The low seat is composed of a single generously upholstered cushion, nearly a mattress that creates an ample area perfect for isolating yourself or sharing moments of conviviality.

Nel divano, comodità e morbidezza derivano dalla seduta profonda e dallo schienale arricchito da cuscini a disposizione libera. La seduta ribassata è formata da un unico cuscino dalla generosa imbottitura, quasi un materasso che crea una dimensione ampia, perfetta per isolarsi o per condividere occasioni conviviali.

The rear fabric panels are anchored to rods that can be removed easily. This is also an aesthetic choice that meets a technical solution aimed at simplifying care for the wood and maintenance of the textile parts. These design expedients allow customers choosing the Pablo Outdoor collection to let it age naturally or have it returned its original condition.

I pannelli posteriori in tessuto si ancorano a bacchette facilmente rimovibili: anche in questo caso una scelta estetica che incontra una soluzione tecnica mirata a semplificare la cura del legno e la manutenzione delle parti tessili. Si tratta di accorgimenti progettuali che consentono a chi sceglie la collezione Pablo Outdoor di lasciarla invecchiare naturalmente, oppure di farla tornare rapidamente alla condizione d'origine.

Pablo Outdoor
Vincent Van Duysen • 2022
Inspiration • 63

The sofa interacts also with the armchair available in two depths, one more suited to conversation, the other for relaxing as if on a chaise longue.

Il divano dialoga inoltre con la poltrona in due varianti di profondità, una più adatta alla conversazione, l'altra a un relax da chaise longue.

The footrest has a similar teak frame and an upholstered seat covered in fabric. Solid and compact, this accessory is also suitable for use as a service small table.

Il poggiapiedi presenta un'analogia struttura in teak e una seduta imbottita rivestita in tessuto. Solido e compatto, questo accessorio diventa adatto anche per l'utilizzo come tavolino di servizio.

Pablo Outdoor
Vincent Van Duysen • 2022
Inspiration • 63

With Pablo Outdoor collection, planning complete and cosy relaxing areas is easy thanks to an additional wooden small element that with the optional cushion can transform itself from a coffee table into a comfy ottoman.

Con la collezione Pablo Outdoor, progettare zone relax complete e accoglienti è facile grazie ad un piccolo elemento aggiuntivo in legno che con il cuscino opzionale può trasformarsi da tavolino in un comodo pouf.

The decisive yet soft lines of Pablo Outdoor seats are perfectly balanced in the small cement outdoor tables. Linear, solid, and highly geometric shapes represent the heart of these architectural objects with a certain effect. To provide multiple solutions, these small tables come in two sizes and two colours. The antique white and greige colours give shape to a large, low model that works perfectly as an island defining a conversation area, and a higher, narrower model with a square base, is ideal as a service element next to the sofa or armchair.

Le linee decise e tuttavia morbide delle sedute Pablo Outdoor trovano il perfetto contraltare nei tavolini da esterni in cemento. Forme lineari, solide, ad alto tasso di geometria, rappresentano il cuore di questi oggetti architettonici dal sicuro impatto. Per fornire molteplici soluzioni, questi tavolini nascono in due misure e due colori. Le tinte bianco antico e greige danno forma a un modello ampio e basso, perfetto come isola che definisce un'area conversazione, e a un modello più alto e slanciato, a base quadrata, ideale come elemento di servizio accanto al divano o alla poltrona.

Pablo Outdoor
Vincent Van Duysen • 2022
Inspiration • 63

The rear panel of Pablo Outdoor wooden structures is available in natural, clay, sea blue and moss green coloured cloth. This fabric rear panel is anchored to rods that can be removed in order to ease washing and maintenance of the product.

Il pannello posteriore delle strutture in legno Pablo Outdoor è disponibile in tela nei colori naturale, argilla, blu mare e verde muschio. Questo pannello posteriore in tessuto è ancorato ad aste che possono essere rimosse per facilitare il lavaggio e la manutenzione del prodotto.

This is also an aesthetic choice that meets a technical solution aimed at simplifying care for the wood and maintenance of the textile parts. These design expedients allow customers choosing the Pablo Outdoor collection to let it age naturally or have it returned its original condition.

Questa è anche una scelta estetica che incontra una soluzione tecnica volta a semplificare la cura del legno e la manutenzione delle parti tessili. Questi accorgimenti progettuali consentono ai clienti che scelgono la collezione Pablo Outdoor di farla invecchiare naturalmente o di riportarla alle condizioni originali.

Sustainability

The padding of Pablo Outdoor are also displaying another eco-friendly material as the 100% recycled polyester fibres from PET, which convey richness and generous comfort to the cushions.

Le imbottiture di Pablo Outdoor sfoggiano anche un altro materiale ecologico come le fibre di poliestere riciclate al 100% da PET, che donano ricchezza e generoso comfort ai cuscini.

Natural teakwood structures with no metal joints and plastic seat slats underline the sustainability of this collection. Exposure to sunlight and rain will finely age the genuine wood used and the provided B&B Italia maintenance kit helps in maintaining its original sheen.

Strutture in legno di teak naturale senza giunzioni metalliche e doghe di seduta in plastica sottolineano la sostenibilità di questa collezione. L'esposizione alla luce solare e alla pioggia invecchierà il vero legno utilizzato e il kit di manutenzione B&B Italia in dotazione aiuta a mantenere la sua lucentezza originale.

Pushpam
Naoto Fukasawa • 2018
Inspiration • 290

A collection of dining tables with small sizes and small tables that stand out for their perfect formal balance and for the striking texture of their cement finish, available in white or greige. “Many years ago, I called my chairs Papilio because their silhouettes reminded me of butterflies. Now I have called my latest project Pushpam (flower in Indonesian), because the Papilio Shell chairs sit around these tables like butterflies flying around a flower. The combination of a Pushpam table with the Papilio chairs creates a pleasant outdoor environment for a coffee or a quick meal. This was made possible by the use of a special cement moulding technology. We also added pigments so as to match the tables to the shell of the Papilio Shell chairs.” (Naoto Fukasawa)

Una collezione di tavoli da pranzo di piccole dimensioni e di tavolini che si caratterizzano per il perfetto equilibrio formale e la forte matericità della finitura in cemento, in due varianti colore, greige e bianco. “Molti anni fa ho chiamato le mie sedie Papilio, perché la loro silhouette evocava le farfalle. Ora ho chiamato questo nuovo tavolo Pushpam (fiore in indonesiano), perché è un tavolo a cui le Papilio Shell stanno intorno come le farfalle volano intorno al Pushpam. Credo che questa introduzione di Pushpam insieme alle sedie Papilio crei un bell'ambiente outdoor per un caffè o un pasto veloce. Ciò è stato possibile grazie all'utilizzo di una tecnologia di stampo in cemento. Abbiamo aggiunto anche i pigmenti corretti per l'abbinamento con i colori delle scocche delle Papilio Shell.” (Naoto Fukasawa)

After its success indoors, the Ray seating system designed by Antonio Citterio now include two new outdoor versions, namely the “Natural” and “Fabric” collections of seats which stand out for their new interlacings and materials.

Dopo il successo in ambito indoor, il sistema di sedute Ray di Antonio Citterio si veste per l'outdoor con due famiglie di sedute, “Natural” e “Fabric” che si distinguono per differenti intrecci e materiali.

Ray Outdoor Natural features an interlacing rope pattern reminiscent of Manila hemp, in perfect harmony with nature, and is created with textilene, making it perfect for outdoor use.

La famiglia Ray Outdoor Natural è caratterizzata da un intreccio a “corda” che si rifà all'abaca naturale, in perfetta armonia con la natura, ed utilizza textilene perfettamente adatto agli ambienti esterni.

Ribes

Antonio Citterio • 2019

Inspiration • 141

Ribes is a modular seating system designed by Antonio Citterio with a focus on versatility, customisation, colour and research on materials. Sofas, central and end elements, chaises longues and ottomans all come in a huge variety of shapes and sizes that lend themselves to being arranged in an outdoor space according to personal taste thanks to the exceptional versatility of the modular components and the availability of a vast rage of covers and finishes.

Ribes è un sistema di sedute componibili disegnato da Antonio Citterio, che mette al centro del progetto i temi della flessibilità, della personalizzazione, del colore e della ricerca sui materiali. Divani, elementi centrali e terminali, chaise longue e pouf, proposti in numerose tipologie e dimensioni, consentono di interpretare lo spazio outdoor in maniera molto personale grazie all'estrema flessibilità compositiva e alla possibilità di scegliere tra numerosissimi rivestimenti e finiture.

The starting point is a futon base with flexible glass-fibre slats resting on an aluminium frame to which two types of arm or back rest can be attached as desired: one with a polypropylene fibre interlacing, the other with a roller cushion.

Il punto di partenza è una base “futon” con doghe flessibili in fibra di vetro, appoggiate su una struttura in alluminio, sulla quale fissare liberamente braccioli e schienali previsti in due tipologie: a telaio con intreccio in fibra di polipropilene oppure a rullo.

Ribes

Antonio Citterio • 2019

Inspiration • 141

The seating system is enriched with seat cushions intended as comfortable mattresses to stretch out on and several shapes of back- and armrest cushion, all containing a new filling giving Ribes a particularly lived-in and soft look. Colour comes into play in the painted frames in shades of anthracite, sage and clay. These same tones are then picked up in the back and arm supports combining the colours sage and clay with a natural-coloured interlacing and anthracite to one in a matching shade, and the same for the brackets of the roller sections.

Il sistema di sedute si arricchisce di cuscini sedile pensati come comodi materassi dove rilassarsi e varie tipologie di cuscini schienale e bracciolo, tutti realizzati con una nuova imbottitura che dona a Ribes un aspetto vissuto particolarmente morbido. Il tema del colore viene introdotto dalle strutture verniciate nelle tonalità antracite, salvia e argilla. Queste nuance sono riprese dagli schienali e braccioli a telaio, che abbinano il salvia e l'argilla ad un intreccio naturale e l'antracite ad un intreccio tono su tono ed ai supporti delle versioni a rullo.

Because it is so versatile, Ribes can also be reconfigured over time by adding new elements as well as altering the functional use of existing ones. By substituting, adding or varying the position of the back and armrests, a sommier can turn into a vis-à-vis sofa, a sofa become an island and a corner seating plan transform into a comfortable bed. Ribes means transformation and is especially suited to those areas that are neither in-nor outside: verandas, shady patios, under a loggia or on a covered terrace allowing a fluid approach to the open spaces in the home.

Grazie alla flessibilità del sistema, Ribes può essere modificato nel tempo aggiungendo nuovi elementi, ma anche cambiando la funzione d'uso di quello esistenti. Sostituendo, aggiungendo o modificando la posizione di schienali e braccioli, un sommier può diventare un vis-à-vis, un divano può diventare un'isola, un angolare può diventare un comodo letto. Una natura trasformabile quella di Ribes, che si trova particolarmente a suo agio negli spazi di passaggio tra interno ed esterno, nelle verande o all'ombra di un patio, sotto un loggiato o un terrazzo coperto, per vivere con fluidità la casa e gli spazi aperti.

Ribes

Antonio Citterio • 2019

Inspiration • 141

The textile choice is also extensive and colourful with designs that have been inspired by traditional fabrics collected during numerous trips to South America, reinterpreted and redesigned using very clear colour schemes that still leave a wide choice of different combinations allowing maximum customisation. The seat, back and arm cushions can be covered as desired in wide or narrow-striped, dotted or singlecolour material, all in various shades that coordinate with each other. Colored profiles, are available in cream white, natural, dark grey, aquamarine, red and blue, giving definition to the upholstery and allowing for a further degree of customization.

Anche la proposta tessile è ricca e colorata, con fantasie che si ispirano a tessuti tradizionali raccolti nel corso di numerosi viaggi in Sudamerica, reinterpretati e ridisegnati secondo schemi cromatici ben precisi, che lasciano tuttavia grande libertà di scelta negli abbinamenti così da offrire innumerevoli possibilità di personalizzazione. I cuscini sedile, schienale e bracciolo possono essere vestiti a piacere con tessuti a righe larghe, righe strette, puntinati e uniti, tutti in varie tonalità tra loro coordinabili. Profili colorati, da scegliere tra il bianco panna, naturale, grigio scuro, acquamarina, rosso e blu sottolineano i rivestimenti e consentono un ulteriore grado di personalizzazione.

Springtime
Jean-Marie Massaud • 2008
Inspiration • 320

The Springtime complements are available in three different sizes all with a rounded shape and are made of water-repellent material. The products are designed by Jean-Marie Massaud as furnishing elements of an outdoor area that conceptually dialogues between nature and interior spaces.

Realizzati in materiale idrorepellente, i complementi Springtime sono disponibili in tre diverse dimensioni e forme, seppur tutte arrotondate. Sono pensati da Jean-Marie Massaud come elementi di arredo di un'area esterna che dialoga concettualmente tra natura e spazi interni della casa.

Titikaka

Naoto Fukasawa • 2009

Inspiration • 314

The waters of Lake Titikaka dictate the shape (and name) of the bench by Fukasawa. This stretch of water lies between Bolivia and Perù, a lake 204 km long and 65 km wide that occupies around 8562 km². This very beautiful place caught the designer's attention, and he tried to capture the movement of the waves to “move” the bench into a new, wavy shape. Titikaka revolutionises the concept of a bench. The traditional typology of the outdoor bench is revamped with contemporary language. It's an impressive piece that resembles a sculpture. Made of teakwood slats that cover the structure to the ground on both front and back, positioned horizontally on the aluminium structure in an original wave-like arrangement to create curves that are both pleasant and ergonomically functional.

Le acque del lago Titikaka dettano la forma (e il nome) della panca firmata Fukasawa. Tra Bolivia e Perù, il bacino di 204 km di lunghezza per 65 di larghezza occupa un'area di 8.562 km². Il luogo di grande suggestione ha colpito la fantasia del designer, che ha cercato di catturare il movimento delle onde per “muovere” la panca dall'inedito andamento ondulatorio. Titikaka rivoluziona il concetto di panchina. Ripropone la tradizionale tipologia della panca per esterni con linguaggio contemporaneo e si impone per la sua presenza scultorea. È realizzata in listelli di teak che scendono a terra su entrambi i fronti e si distribuiscono intorno alla struttura in alluminio con un originale andamento ondulatorio creando curve insieme plastiche e funzionali all'ergonomia della seduta.

Tobi-Ishi Outdoor

Edward Barber and Jay Osgerby • 2017

Inspiration • 282

After the debut in the home collection, Edward Barber and Jay Osgerby design Tobi-Ishi Outdoor, the outdoor version of the iconic round dining table and of the low table clearly inspired by Zen. The design duo are great enthusiasts of Japanese art and culture, and the name and inspiration come from the smooth stones “tobi-ishi” used as ornaments in traditional Zen gardens. The overhang of the table and the vertical trapezoidal bases set at right angles generate an essential sculptural figure that appears to change shape depending on the point of observation. Exclusively made of cement, Tobi-Ishi Outdoor comes in two colour variants, grey and anthracite.

Dopo il debutto nella collezione casa, Edward Barber e Jay Osgerby propongono Tobi-Ishi Outdoor, la versione da esterno dell'iconico tavolo da pranzo rotondo e del tavolo basso con esplicite ispirazioni zen. I due designer sono grandi estimatori dell'arte e della cultura giapponese ed il nome e l'ispirazione è un riferimento alle pietre levigate “tobi-ishi” usate con funzione ornamentale nei tradizionali giardini zen. Lo sbalzo del piano e le basi trapezoidali verticali poste ortogonalmente tra loro generano una figura scultorea ed essenziale, che varia costantemente la propria immagine secondo il punto di osservazione. Unica la finitura del tavolo e del tavolo basso realizzati in cemento in due diverse varianti di colore, grigio ed antracite.

Tramae
unPIZZO • 2020
Inspiration • 300

unPIZZO, a design studio and textile handicrafts laboratory specialized in interlacing for furnishing, continues its research on the revival of ancient craft techniques with Tramae, a brand new ottoman for B&B Italia. Available in three dimensions, this small object full of character stands out for its hexagonal shape, which is rounded until the edges are no longer visible. The surface shows a singular dynamic mix of materials and colors that come to life through an exclusive weave that reinterprets the tradition of wicker basket making in a contemporary key. At the end of its lifespan, Tramae can be dismantled completely so that each component can be separated and disposed of in the best way for each material.

unPIZZO, studio di progettazione e artigianato tessile specializzato nell'intreccio per l'arredamento, prosegue la sua ricerca sul recupero di antiche tecniche artigianali con Tramae, un nuovissimo pouf per B&B Italia. Realizzato in tre dimensioni, questo piccolo oggetto pieno di carattere si contraddistingue per la forma esagonale che si arrotonda fino a perdere gli spigoli. La superficie presenta un singolare dinamismo di materiali e colori che prendono vita grazie ad un intreccio esclusivo che rilegge in chiave contemporanea la tradizione della lavorazione dei cesti in vimini. Tramae è completamente disassemblabile. Alla fine del suo ciclo di vita ogni singolo elemento che lo compone si potrà separare e smaltire seguendo il percorso più adatto a ogni materiale.

Descriptions and pictures of products included
in this catalogue have an indicative value only
and are not binding for products' use.
B&B Italia reserves the right to modify their
products without prior notification.
For further technical information of the
products, please contact the authorised dealer
closest to you (see www.bebitalia.com).

La descrizione e le immagini dei prodotti del
presente catalogo sono puramente indicative e
non possono essere considerate vincolati ai fini
del loro utilizzo. B&B Italia si riserva di apportare
ai prodotti le modifiche che ritiene più opportune,
in qualsiasi momento e senza preavviso.
Per ulteriori informazioni sulle caratteristiche
tecniche dei prodotti, invitiamo a consultare il
sito www.bebitalia.com dove troverete l'elenco
dei rivenditori autorizzati a cui rivolgervi.
